COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of this course the student will:

1. Document requirements of contractor from the "General Conditions of the Contract" to project owner, architect, contractor, sub-contractors, regulatory agencies, and others.
2. Identify information sources, conduct research and synthesize in written or graphic form information required for effective project management.
3. Design a project record keeping system.
4. Document pre-construction activities, including meetings.
4. Evaluate elements of an effective quality assurance and control program.
5. Research, evaluate and respond to a: "Submittal" request; "Request for Information"; "Change Order"; Schedule Change; "Claim" or "Dispute; and a "Request for Payment".
6. Evaluate project closeout elements, including what is required to demonstrate "Substantial Completion".

Topics and Scope:

1. Documents and communication for a construction project
2. "General Conditions of the Contract"
 - a. Roles
 - b. Responsibilities
3. Elements of a project record keeping system
 - a. File
 - b. Project manual
4. Construction meetings and record keeping
 - a. Pre-construction

- b. Construction observation
- c. Inspection
- 5. Quality assurance and control system and its distribution
- 6. Elements of a submittal and its distribution
- 7. Elements of a "Request for Information" and its distribution
- 8. Contract document interpretation and modification and communication to affected parties
 - a. Change orders
 - b. Change of scope of services, etc.
- 9. Elements of project schedule revision and its distribution
- 10. Elements of a measurement and payment system and its distribution
- 11. Elements of a claim or dispute documentation and its distribution
- 12. Elements of "Project Closeout" documentation and its distribution

Assignment:

- 1. Identify specific responsibilities of Contractor from "General Conditions of the Contract".
- 2. Refine/Modify/Expand an existing project record keeping system.
- 3. Record the minutes of a meeting.
- 4. Outline aspects of an effective quality assurance and control program
- 5. Explain the role of all participants in the origination and processing of a submittal.
- 6. Prepare a response to a "Request for Information" for appropriate parties.
- 7. Prepare a "Change Order" for appropriate parties.
- 8. Develop and document a schedule change for appropriate parties.
- 9. Prepare a "Request for Payment" and document the work covered in the request.
- 10. Identify and organize documents needed to pursue, or respond to, a claim or dispute.
- 11. Prepare documentation for a "Project Closeout".
- 12. Prepare a 5-10 page term paper related to contract administration.
- 13. Objective exams.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Term papers, Documentation.

Writing 40 - 60%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Synthesize information and apply.

Problem solving 10 - 15%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
20 - 40%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation.

Other Category
5 - 10%
