COURSE CONTENT

Outcomes and Objectives:

Student will be able to:

1. Stock a basic pantry in an intelligent way that will allow them to cook simple, healthy meals at home.
2. Understand and recognize the differences between culinary oils, including the various grades of olive oils. They will know how to buy them, how to store them, and how to use them, and will understand their nutritional make up, as well.
3. Understand and recognize the differences between vinegars and know how to select, store, and use them. They will understand the importance of the strength of vinegars and know the history of balsamic vinegar.
4. Understand and properly use both salt and pepper. They will be exposed to the various types and to nutritional information as well.
5. Understand, recognize, and use all types of mustard, from mustard seed and flour to prepared mustard condiments.
6. Understand, select, and use dried pastas, beans, and rice.
7. Understand how to put together a basic spice pantry and when dry herbs must not be used in place of fresh herbs.
8. Know how to put together a simple frozen pantry of stocks and sauces.
9. Understand when it is appropriate to use canned foods (such as canned tomatoes in the winter), and how to select them.
10. Put together basic recipes using pantry items.
11. Understand basic cooking techniques such as how to boil water, the difference between simmer and boil, how to saute how to deep fry, how to steam vegetables and fish.

Topics and Scope:

1. Each class begins with a lecture that focuses on an element of the pantry.
2. Each class includes a tasting of the pantry item being discussed.
3. Each class includes a cooking demonstration of the item being discussed.
4. Each class includes a lab exercise using the product being discussed.

Assignment:

Semester Project: Students will be asked to put together, on paper, their basic pantry, with an emphasis on their cooking and nutritional needs. From this pantry list, they will also be required to put together a menu for a simple meal for four.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%
