Total Out of Class Hours: 70.00

Total Student Learning Hours: 166.25

Title 5 Category:	AA Degree Applicable
Grading:	Grade Only
Repeatability:	00 - Two Repeats if Grade was D, F, NC, or NP
Also Listed As:	
Formerly:	CIS 84.81B

Catalog Description:

Second semester of Cisco's Networking Academy curriculum. Topics include WAN basics, router set up, startup, and configuration, Cisco user interface, troubleshooting.

Prerequisites/Corequisites: Course Completion or Current Enrollment in CIS 58.81A (or CIS 84.81A)

Recommended Preparation: Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

COURSE CONTENT

Outcomes and Objectives:

The student will:

- 1. Describe WAN standards
- 2. Compare and contrast the WAN connection methods
- 3. Discuss WAN data link protocols
- 4. Describe the Wan physical layer
- 5. Describe the benefits of network segmentation with routers
- 6. List the elements of the Cisco user interface
- 7. Configure the HyperTerminal program to interface with the Cisco router
- 8. Describe the various router configuration modes
- 9. Describe the various router passwords
- 10. Apply the enhanced editing features of the Cisco IOS
- 11. Compare router components to typical PC components
- 12. Describe typical router setup and startup
- 13. Describe and use the Cisco Discovery Protocol (CDP)
- 14. Configure IP on the Cisco router
- 15. Configure the RIP and IGRP routing protocols
- 16. Given a situation, troubleshoot and correct router connectivity problems

Topics and Scope:

- 1. WAN Standards
 - a. ISO
 - b. ANSI
 - c. EIA
 - d. IETF (Internet Engineering Task Force)
 - e. ITU-T (aka CCITT)
- 2. WAN connection methods and the pros and cons of each
 - a. Dedicated point-to-

- b. Multipoint
- c. Multiaccess switched service
- 3. WAN data link protocols
 - a. SDLC
 - b. Peer Device Protocols (HDLC/PPP)
 - c. Switched or Relayed Protocols.
- 4. WAN physical layer
 - a. connections required
 - 1) customer location
 - 2) phone company location
 - 3) connection standards
- 5. Benefits of routing/network segmentation
- 6. Cisco user interface
 - a. definition
 - b. functions in terms of user and administrator
- 7. Interfacing the Hyperterminal program
 - a. definition
 - b. steps preparatory to using the program
 - c. COM port settings
- 8. Router configuration modes
 - a. global configuration mode
 - b. Interface configuration mode
 - c. line configuration mode
 - d. router configuration mode
- 9. Router passwords
 - a. enable password
 - b. enable secret password
 - c. terminal password
 - d. AUX password
 - e. virtual terminal password
- 10. Advanced editing features of the Cisco IOS
 - a. key combinations
 - b. command history
 - c. configure time and date
 - d. configure router identification
- 11. Router components
 - a. ROM
 - b. Flash Memory
 - c. NVRAM
 - d. NVRAM
 - d. RAM/DRAM
 - e. router interfaces
- 12. Router setup and startup
 - a. Boot process
 - 1) POST
 - 2) load bootstrap
 - 3) locate and load Cisco IOS
 - 4) locate and load router configuration file
- 13. Cisco Discovery Protocol (CDP)
 - a. data link layer sharing configuration information
 - b. show cdp neighbor command and its details.
 - c. information available .

- d. no cdp enable command
- e. show cdp interface command
- 14. Router configuration
 - a. When to setup IP on Cisco router
 - b. Parts of the IP configuration
 - c. Using ÷secondaryø
 - d. RIP
 - e. RGIP

Assignment:

- 1. Individual hands-on exercises to demonstrate each topic.
- 2. Reading approximately 50 pages weekly from the textbook.
- 3. Participate in class discussion topics.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Quizzes, Exams, Hands-on computer exercises

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

SET UP, MAINTAIN AND TROUBLESHOOT NETWORKS

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion, PERFORMANCE EXAM(S)

Other: Includes any assessment tools that do not logically fit into the above categories.

Writing 0 - 0%

Problem solving 20 - 50%

Skill Demonstrations 20 - 50%

Exams 20 - 50%

Other Category 0 - 0%

None
