## **COURSE CONTENT**

#### **Outcomes and Objectives:**

Upon completion of this course, students will be able to:

- 1. Demonstrate competency of learned nursing procedures/skills.
- 2. Accurately calculate medication dosages for enteral and parenteral (subcutaneous and intramuscular) medications.
- 3. Safely administer medications to assigned residents at a sub-acute care facility.
- 4. Utilize the nursing process and Maslow's Hierarchy of Needs theory in providing safe, competent nursing care for residents'at assigned long term care and sub-acute facilities.
- 5. Describe emergency care procedures.
- 6. Practice within professional, legal and ethical standards/laws.

## **Topics and Scope:**

- Basic nursing procedures in the skills laboratory setting.
   Medication dosage calculation.
- 3. Safe medication administration.
- 4. Safe, competent care of residents at a long term care setting and a subacute care facility utilizing the nursing process and Maslow's Hierarchy of Needs theory.
- 5. Emergency care procedures.
- 6. Professional, legal and ethical standards/laws.

# **Assignment:**

1. Return demonstration to demonstrate competency of learned basic

nursing procedures.

- 2. Clinical preparation to include collecting a data base and a list of medications and abnormal diagnostic tests for each assigned resident at long term care and sub-acute care facilities.
- 3. Research of assigned resident's disease process pathophysiology.
- 4. Research abnormal diagnostic tests for each assigned resident.
- 5. Provide nursing care to assigned residents in long term care and sub-acute care facilities.
- 6. Research of medications and development of medication cards for assigned residents.
- 7. Memorization of residents' medications.
- 8. Administration of enteral and parenteral (subcutaneous and intramuscular injections) medications to assigned residents.
- 9. Participation in post-clinical conferences.

#### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Narrative and POMR nursing documentation

Writing 10 - 30%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Field work, Analysis, assessment and evaluation of client care

Problem solving 25 - 50%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Field work, Performance exams

Skill Demonstrations 35 - 50%

**Exams:** All forms of formal testing, other than skill performance exams.

Completion, Math/Medication dosage and Med abbreviation exams

Exams 5 - 10%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None

Other Category 0 - 0%
