COURSE CONTENT

Outcomes and Objectives:

At the completion of this course, the health care provider will be able to communicate with the client in Spanish by being able to:

1. Utilize elementary anatomical terms when eliciting information or giving instructions to the Spanish-speaking client.
2. Obtain demographic information, address, telephone number, social security number, and client history that requires the use of numbers.
3. Give elementary instructions relevant to dietary modification, activity levels and prescribed medication.
4. Interpret client statements regarding symptoms, activity level, health habits, and over-the-counter and prescribed medication use.
5. Reply to simple client questions regarding diet, activity level, medications and follow-up instructions.
6. Obtain a basic patient history.
7. Utilize common expressions of courtesy and greeting when interacting with the Spanish-speaking client.
8. Give simple directions relevant to finding a specific location, i.e., a specific building.
9. Describe key ideas when given a statement written in Spanish relevant to a common health care situation.
10. Interpret and give elementary health-related information on the telephone.
11. Describe in English selected Latin-American cultural beliefs that have an impact on health and health care delivery.
