COURSE CONTENT

Outcomes and Objectives:

1. Develop an understanding of the components of wildlife habitats, and effects of loss of habitation wildlife and human populations.
2. Effectively communicate social and ecological considerations where human uses of land conflict with wildlife habitat needs; and describe the importance of land-use planning.
3. Demonstrate and explain fish migratory patterns in the context of the entire life cycle; describe the limiting factors effecting the Pacific Salmon.
4. Describe habitat characteristics of riparian areas; identify animals that inhabit them; state the importance of riparian areas to wildlife and humans.

Topics and Scope:

1. Wildlife - Inherent Value and Human Use
 - a. The place of wildlife within functioning ecosystems.
 - b. Economic, aesthetic and religious value of wildlife to human populations.
 - c. Distribution and extent of some wildlife populations.
2. Wildlife - Fisheries Ecology
 - a. Components of habitat - food, cover, water, space.
 - b. Wildlife migratory patterns.
 - c. Population dynamics of fish and wildlife.
3. Wildlife Management
 - a. Uses of wildlife - consumptive and non-consumptive.
 - b. Wildlife management problems - overhunting, habitat destruction, pesticides.
 - c. Conservation techniques and principles of maintaining populations.

Assignment:

1. Readings totaling 200 pages.
2. Classroom projects developing two interpretative and educational activities associated with wildlife management techniques.
3. Two written lesson plans involved in communicating knowledge of wildlife habitat needs and fish migratory patterns.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Reading reports

Writing
30 - 40%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Activity project reports

Problem solving
25 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Written lesson plans

Skill Demonstrations
30 - 40%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
