COURSE CONTENT

Outcomes and Objectives:

Course objectives are written to conform with those standards outlined in Chapter 1260 of the 1992 statutes of the Health and Safety Code and Title 22 Division 9, Pre-Hospital Emergency Medical Services of the California Administrative Code. Objectives listed are for the state mandate divisions. Upon the completion of the clinical rotations in the intensive/coronary care unit, pediatric, labor and delivery, burn unit, emergency department the student will be able to:

1. Demonstrate communication and leadership skills needed in the pre-hospital setting.
2. Demonstrate complete patient assessment.
3. Demonstrate all methods of delivering oxygen therapy to patients as it relates to the pre-hospital setting.
4. Demonstrate ability to establish venous access.
5. Calculate drug doses and intravenous drip rates.
6. Demonstrate administration of chemicals as prescribed.
7. Demonstrate pre-hospital management of patients with airway emergency.
8. Demonstrate skills necessary to splint/immobilize all types of soft tissue and musculoskeletal injuries.
9. Demonstrate pre-hospital management of chest trauma.
10. Demonstrate pre-hospital management of abdominal trauma.
11. Demonstrate pre-hospital management of head & spinal cord injuries.
12. Demonstrate pre-hospital management of a patient with multi system trauma.
13. Demonstrate pre-hospital management of a patient with burns.
14. Recognize normal and abnormal cardiac rhythms.
15. Administer appropriate chemicals to treat abnormal cardiac rhythms.
16. Demonstrate pre-hospital management of a patient with a cardiovascular emergency.

17. Demonstrate pre-hospital management of a patient with a respiratory emergency.
18. Demonstrate pre-hospital management of a patient with an identified medical emergency of the endocrine, nervous, gastrointestinal, genitourinary and reproductive systems.
19. Demonstrate pre-hospital management of a patient under the influence of alcohol or other chemical substance.
20. Demonstrate proper technique of handling infectious disease issues in the pre-hospital setting.
21. Demonstrate the assessment and treatment of a pediatric patient in a pre-hospital setting.
22. Demonstrate assisting a pre-hospital delivery.
23. Demonstrate assessment and treatment of a neonate.
24. Demonstrate pre-hospital management of a patient exhibiting a behavioral emergency.

Topics and Scope:

The following will relate to work in the pre-hospital, hospital and clinic environment:

1. Practical application of paramedic theory and skills in clinical setting
 - a. leadership
 - b. patient assessment
 - c. verbal and written communication
2. Clinical assessment and management of adult and pediatric patient with medical/surgical needs
 - a. airway management
 - b. intravenous administration
 - c. pharmacology
3. Review of anatomy and pathophysiology of the adult & pediatric patient
4. Electrocardiology
 - a. review criteria
 - b. treatment protocols
5. Clinical assessment and management of obstetrical patient
6. Emergency care of adult and pediatric patients
7. Management of patient under the influence of drug and/or alcohol
8. Infection control and precautions
9. Development of problem solving strategies for patient care

Assignment:

Students maintain a log book, journal and an electronic data base of all patient contacts and skill demonstration. These items will reflect student performance in areas including but not limited to identification of dysrhythmias, oxygen administration, intravenous skills, intubation, defibrillation, medication administration, patient assessment and management of the ill or injured patient. In addition, students are assigned:

1. completion of 10 case studies
2. interpretation of 10 electrocardiograms
3. research 20 home medications

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

journal

Writing
10 - 25%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Field work, performance exams

Skill Demonstrations
20 - 40%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

clinical evaluations

Other Category
40 - 60%
