		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 35.00 Total Student Learning Hours: 52.50

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: LIR 59

#### **Catalog Description:**

An introductory course to learn and apply the skills needed to conduct research efficiently and effectively.

### **Prerequisites/Corequisites:**

#### **Recommended Preparation:**

Course Eligibility for ENGL 1A and Course Completion of CS 101A

#### **Limits on Enrollment:**

#### **Schedule of Classes Information:**

Description: An introductory course to learn and apply the skills needed to conduct research

efficiently and effectively. (Grade or P/NP)

Prerequisites/Corequisites:

Recommended: Course Eligibility for ENGL 1A and Course Completion of CS 101A

Limits on Enrollment: Transfer Credit: CSU;UC.

Repeatability: Two Repeats if Grade was D, F, NC, or NP

### Certificate/Major Applicable:

Major Applicable Course

### **COURSE CONTENT**

# **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Analyze a research need
- 2. Find information effectively and efficiently by using a variety of search techniques
- 3. Access needed information in multiple publication formats
- 4. Evaluate the quality and relevance of information sources
- 5. Recognize several ethical and legal issues related to the use of information

### **Objectives:**

Upon completion of the course, students will be able to:

- A. Analyze a research question:
- 1. Articulate a research need
- 2. Determine the scope of a research need
- 3. Broaden or narrow a research need to fit the scope of a lower-division undergraduate research assignment
- B. Find information effectively and efficiently by using a variety of search techniques:
- 1. Identify various types of information sources, such as reference works, popular periodicals, scholarly journals, etc.
- 2. Choose appropriate sources based upon the research need
- 3. Identify major concepts from the research need to be used as keywords
- 4. Use basic search techniques, such as keywords, Boolean operators, search limiters, etc.
- 5. Use advanced search techniques, such as field searching, truncation, wildcards, etc.
- 6. Evaluate search success and modify search strategies accordingly
- C. Access needed information in multiple publication formats:
- 1. Use the item record to determine the means of access
- 2. Retrieve information from digital sources
- 3. Locate print sources in the library

- D. Evaluate the quality and relevance of information sources:
- 1. Assess the quality of information sources based upon authority, objectivity, purpose and scope
- 2. Determine the importance of the publication date in the context of the research need
- 3. Determine the appropriateness of information based upon its relevance to a research need
- E. Identify several ethical and legal issues related to the use of information:
- 1. Describe differences between summarizing, quoting, paraphrasing and plagiarizing information
- 2. Document sources in accordance with an academic style guide (APA or MLA)
- 3. Describe the role of copyright in relationship to sources, including digital media
- 4. Identify elements in a bibliographic citation

# **Topics and Scope:**

Topics will include:

- I. Analysis of a research question
  - A. Context of a research need (personal, academic, discipline-specific, course-specific)
  - B. Refinement of a research need
  - C. Scope of a research need
- II. Finding information effectively and efficiently by using a variety of search techniques
  - A. Types of information resources (popular, scholarly, primary, secondary, tertiary, etc., both online and in print)
  - B. Selection of appropriate resources (reference books, periodicals, monographs., etc., both online and in print)
  - C. Keywords and major concepts
  - D. Basic search techniques (keywords, Boolean operators, search limits, etc.)
  - E. Advanced search techniques (controlled vocabulary, truncation, wildcards, nesting, field searching, phrase searching, etc.)
  - F. Modification of search strategies based upon the success of a search (using appropriate tools, altering keywords)
- III. Accessing needed information in multiple publication formats
  - A. Using the item record to determine means of access
  - B. Information retrieval from digital sources
  - C. Locating print resources by using Library of Congress call numbers
- IV. Evaluating the quality and relevance of information sources
  - A. Authority
  - B. Objectivity
  - C. Scope
  - D. Purpose
  - E. Currency and context of research need
  - F. Relevance
- V. Identifying several ethical and legal issues related to the use of information
  - A. Summary, quotations, paraphrasing, citing, plagiarism
  - B. In-text citations and works cited/reference list
  - C. Copyright and online sources
  - D. Elements of bibliographic entries

### **Assignment:**

Representative assignments:

- 1. 1-2 homework assignments to assess the application of skills for each of the learning outcomes (5-10 assignments)
- 2. 1-2 class exercises tied to each of the learning outcomes (5-10 class exercises)
- 3. 1 term-long project, such as an annotated bibliography, a research journal or similar indicator of engagement and skill in the research process
- 4. Quizzes, midterm and/or final exam

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written responses to short-answer questions, written summaries of the content of sources, written evaluations of the quality of information sources, written assessment of the research process. Writing 20 - 50%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework assignments and class exercises that call for the development of strategies or plans to solve research problems or resolve ineffective searches.

Problem solving 15 - 30%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Homework assignments and class exercises to demonstrate search and retrieval skills.

Skill Demonstrations 5 - 30%

**Exams:** All forms of formal testing, other than skill performance exams.

Testing may include quizzes, midterms, and a final. Questions on exams are typically multiple choice, true/false, matching items, short answer and short essay.

Exams 15 - 50%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation.

Other Category 0 - 20%

# **Representative Textbooks and Materials:**

Required reading may consist of handouts and web documents provided by instructor. Sample texts for required or recommended reading:

The College Student's Research Companion: Finding, Evaluating, and Citing the Resources You Need to Succeed. 5th edition. Quaratiello, Arlene Rodda and Jane Devine. Neal Schuman, 2011.
