COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Apply the principles of the selling process by demonstrating selling strategies and approaches.
2. Analyze and explain motivations of the customer and how to positively respond.
3. Relate marketing and management concepts to the day-to-day business of agriculture.

|

Objectives:

Upon successful completion of this course, students will be able to:

1. Discuss the history and development of the agribusiness sales industry including its scope, variety, historical perspective, relationship to other industries, and current and future role in the U.S. economy.
2. Recognize and summarize the characteristics of a successful agribusiness salesperson.
3. Analyze and apply the component parts and dynamics of the sales process to agribusiness sales.
4. Identify the major sources for agricultural sales prospects and the methods used to secure sales commitments from potential buyers.
5. Explain the benefits of providing post-sales customer service for agricultural customers.
6. Examine and demonstrate qualities and skills of a good public speaker.
7. Define leadership and the characteristics of successful leadership.
8. Compare and contrast current theories of leadership.
9. Demonstrate interpersonal and organizational communication skills, with particular emphasis

on the uniqueness of the agribusiness sector.

10. Describe principles of good listening, overcoming barriers in communication, and effective verbal and non-verbal communication.

11. Discuss the importance of teamwork in organizations.

12. Discuss the critical components of effective management.

13. Examine social responsibility and ethics as they relate to factors affecting ethical choices, criteria for ethical decision making, and managing company ethics.

14. Examine self-management options and formulate a personal strategic plan.
