		Contact Total	3.00		Contact Total	52.50
		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 105.00

Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly:

Catalog Description:

An introduction to viticulture including history and development of the wine industry, grape growing, distribution, processes and factors affecting wine quality. Also covers biology, anatomy, propagation, cultivated varieties, rootstocks, climate, vineyard practices, and common diseases and pests. Provides basic information required to establish a wine grape vineyard in Sonoma County.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:**Schedule of Classes Information:**

Description: An introduction to viticulture including history and development of the wine industry, grape growing, distribution, processes and factors affecting wine quality. Also covers biology, anatomy, propagation, cultivated varieties, rootstocks, climate, vineyard practices, and common diseases and pests. Provides basic information required to establish a wine grape

vineyard in Sonoma County. (Grade or P/NP)

Prerequisites/Corequisites:

Recommended: Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

Transfer Credit: CSU;

Repeatability: Two Repeats if Grade was D, F, NC, or NP

Both Certificate and Major Applicable

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Explain yearly growth cycle of grapevines and correlate vineyard operations appropriate at each phenological stage.
2. Identify common vineyard pest and disease problems, explain their life cycles, and recommend timely and sustainable vineyard practices for disease and pest control.
3. Describe various grapevine cultivars, rootstocks, trellis types and canopy management strategies that are utilized for high quality wine grape production.
4. Describe the steps for determining feasibility for planting (or replanting) a vineyard.

Objectives:

At the conclusion of this course, the student should be able to:

1. Summarize the history and development of the wine industry.
2. Evaluate the economic importance of grapes both historically and currently.
3. Analyze the vineyard yearly growth cycle and relate it to timing of vineyard practices.
4. Identify and describe grapevine structures and functions.
5. Describe and contrast development of a new vineyard vs. farming an established vineyard.
6. Explain how climate, soils and vineyard practices affect vine growth and grape and wine quality.
7. Identify, compare and contrast the different cultivars and rootstocks.
8. Summarize the unique characteristics of the world's major grape growing areas.
9. Identify and describe the important vineyard disease and pests and recommend integrated pest management control strategies.

Topics and Scope:

- I. History and Evolution
 - A. Overview of world-wide importance of grapes and grapevines
 - B. History and development of the wine industry
 - C. Grapevine classification and Vitis species
 - D. Origin of Vitis vinifera and its spread throughout the world
- II. Geographical Distribution of Grape Growing
 - A. European and American varieties
 - B. Growing regions in California
 - C. Growing regions world-wide
- III. Vitis Species and Cultivars
 - A. Wine grape, table grape and raisin cultivars
 - B. Rootstocks
 - C. Clones
 - D. Vitis species
- IV. Climate and Soils
 - A. Heat summation and climatic regions
 - B. Vineyard soils and terroir
- V. Vine Structure and Function
 - A. Vocabulary
 - B. Shoot system and vine canopy
 - C. Root system and permanent wood
 - D. Vine physiology
- VI. Vineyard Yearly Growth Cycle
 - A. Budburst
 - B. Grand period of growth
 - C. Bloom and berry set
 - D. Veraison and ripening
 - E. Harvest
 - F. Post-harvest
 - G. Dormancy
 - H. Processes and factors affecting wine quality
- VII. Vine Propagation
- VIII. Vineyard Development
 - A. Site selection
 - B. Natural resources, habitat and environmental concerns
 - C. Vineyard design - trellises and irrigation systems
 - D. Installation and planting
- IX. Farming and Established Vineyard
 - A. Vineyard practices during the cycle of vine growth
 - B. Canopy management
 - C. Vine mineral nutrition management
 - D. Sustainable agricultural practices
 - E. Methods to improve grape quality
- X. Grapevine Diseases and Pests
 - A. Identification and monitoring
 - B. Control and integrated pest management
- XI. Economic Impacts of the Wine Grape Industry

Assignment:

- 1. Weekly reading (20-30 pages)

2. One research report on one of the following: worldwide distribution of grapes, grape production and consumption from a historical perspective, history of the development of the wine industry, or the importance of grapes historically and currently (5-7 pages)
3. Ten homework assignments including: graphic summary of yearly growth cycle and timing of vineyard practices, the different cultivars and rootstocks, the important vineyard diseases and pests with recommendations for management practices
4. Two midterms and one final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Research report, homework assignments	Writing 40 - 40%
---------------------------------------	---------------------

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None	Problem solving 0 - 0%
------	---------------------------

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None	Skill Demonstrations 0 - 0%
------	--------------------------------

Exams: All forms of formal testing, other than skill performance exams.

Midterm and Final Exam	Exams 60 - 60%
------------------------	-------------------

Other: Includes any assessment tools that do not logically fit into the above categories.

None	Other Category 0 - 0%
------	--------------------------
