COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Safely and effectively apply fundamental techniques in the design and application of special effects makeup including prosthetics, wig styling, and mask-making.

Objectives:

At the conclusion of this course, the student should be able to:

1. Identify and apply various types of materials used in special effects makeup, wig styling, and mask-making for theatre, screen, and studio applications.
2. Safely and effectively demonstrate a variety of special effects makeup techniques used in the creation of three-dimensional makeup design.
3. Safely and effectively demonstrate the application of prosthetic appliances.
4. Analyze and interpret appropriate styles, color, and texture choices for a character from a work of dramatic literature, using special effects makeup techniques.
5. Create three-dimensional shapes by utilizing clay sculpture, painting techniques, wig styling, and prosthetics.
6. Identify cultural and historical makeup and hair styles and trends as applied to a work of dramatic literature.
7. Conduct basic script analysis and research of the script's themes, style, historical period, and cultural setting, in preparation for mask, wig, and makeup design.
8. Convey design details through makeup charts and/or renderings.

Topics and Scope:

All topics are covered in both the lecture and lab portions of the course. Each class meeting begins with a lecture/demonstration, followed by hands-on lab instruction. During lab sessions the student will develop technical skill through practice and application of concepts, techniques, and terminology introduced in the lecture. Additional one-on-one instruction on the above topics also occurs during lab hours.

Assignment:

Lab: Skill Demonstration Projects and Exercises

- 1. Design and apply special effect makeup techniques on 3 or more projects.

2. Complete a life mask using alginate and plaster.
3. Complete 2 or more painting exercises to create perspective and accentuate three-dimensional makeup effects.
4. Execute the application of a bald cap.
5. Sculpt 3-4 different projects in clay.
6. Complete 3-4 molds for individual projects.
7. Paint and apply to the face 3-4 completed makeup designs, which incorporate prosthetics and/or other special effects.
8. Incorporate the use of wig styling in 1-2 complete makeup projects.
9. Design and create a mask using foam latex or other mask-making materials.

Other Assignments:

1. Rendering and Makeup Charts: Render and develop a makeup chart for each makeup and hair design project.
2. Research: Complete research for creative inspiration of all assigned makeup projects.
3. Material Planning and Sourcing: Identify and access appropriate materials for all assigned makeup projects.
4. Portfolio: Compile a portfolio of class work.
5. Exam: Multiple choice exam covering safety procedures, as well as life mask construction methods and materials.
6. Professionalism: Adhere to the standards of professionalism expected in the field of makeup design and the course syllabus:
 - A. Arrive promptly and prepared for all class meetings, participating actively.
 - B. Maintain an amiable and supportive attitude when interacting with others (fellow students, instructor, models, etc.).
 - C. Work collaboratively with other team members when working on group tasks.
 - D. Acknowledging the sometimes stressful and time-sensitive working environment, contribute positively by staying focused, listening closely, following instructions carefully, and taking initiative when appropriate.
 - E. Adhere to safety procedures as instructed, and strive to maintain good personal health and safety practices.
