COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Evaluate a patient's general health to prevent anticipated emergencies, recognize the signs and symptoms, and initiate the appropriate early management of common medical emergencies potentially occurring in a dental setting.

Objectives:

At the conclusion of this course, the student should be able to:

1. Apply theoretical knowledge base and critical thinking skills in the prevention, identification, and/or response to common medical emergencies in the dental setting.
2. Describe the signs and symptoms of common medical emergencies.
3. Obtain and interpret a completed medical history to thoroughly evaluate a patient's general health.
4. Record, evaluate, and monitor vital signs for indication of treatment modifications needed for each patient.
5. Identify and compare predisposing factors placing patients at greater risk for medical emergencies, including vital signs and assessments based on the American Society of Anesthesiologists (ASA) classification system.
6. Communicate effectively during interactions with the emergency health care providers and patients.
7. Recognize and prepare the items commonly found in a basic emergency kit and operate the equipment necessary to manage a medical emergency.
8. Use a team approach to prepare the dental team for the appropriate management methods during simulated medical emergencies.

9. Describe the legal and ethical considerations and responsibilities of the dental team in the management of emergency situations.
10. Demonstrate the utilization of information found in an online dental drug reference source in relation to health history and treatment planning for stress reduction protocol.

Topics and Scope:

I. Preventing Medical Emergencies

- A. Physical evaluation and health history review
- B. Patient vital signs
- C. Treatment planning modifications

II. Preparing for Medical Emergencies

- A. Office preparation and staff assignments
- B. Staff training
- C. Emergency techniques
- D. Basic emergency kit
 1. Emergency drugs
 2. Emergency equipment

III. Legal Considerations of Medical Emergencies

- A. Theories of liability
- B. Standard of care during emergency situations
- C. Limiting liability for emergencies
- D. Documentation for emergencies

IV. Early Recognition and Management of Common Medical Emergencies

- A. Unconsciousness
 1. Syncope
 2. Postural hypotension
 3. Acute adrenal insufficiency
- B. Respiratory distress
 1. Airway obstruction
 2. Hyperventilation
 3. Asthma
 4. Heart failure/acute pulmonary edema
- C. Altered consciousness
 1. Diabetes mellitus
 - a. Insulin shock
 - b. Diabetic coma
 2. Thyroid gland dysfunction
 3. Cerebrovascular accident
- D. Seizures
 1. Absence/partial seizures
 2. Tonic-clonic seizures
- E. Drug related emergencies
 1. Drug overdose
 2. Drug allergy
 - a. Anaphylaxis
- F. Cardiac emergencies
 1. Angina pectoris
 2. Acute myocardial infarction
 3. Cardiac arrest
 4. Pacemaker/implantable cardioverter defibrillator malfunction
- G. Other emergencies

1. Hemorrhage
2. Shock
3. Burns
4. Intraocular foreign body/chemical solution
5. Broken instrument tip in oral cavity
6. Dislocated jaw
7. Avulsed tooth

Assignment:

1. Weekly reading assignment
2. Complete readiness assessment assignments (5-10)
3. Complete quizzes (5-10)
4. Final exam
5. Role-play in medical emergency preparedness
6. Complete group project paper

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Group project paper

Writing
10 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Readiness assessment assignments

Problem solving
10 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Medical emergency preparedness role-play

Skill Demonstrations
10 - 20%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes; final exam

Exams
50 - 60%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
