## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Describe the main theoretical elements of psychology, and explain their application to sport and exercise.
2. Describe how the knowledge of psychology is used to improve sport performance.
3. Examine the ethical standards and professional responsibilities of skills training in sports psychology.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Examine the history of sport and exercise psychology as a science and practice.
2. Describe what sport and exercise psychology specialists do.
3. Examine theories and application of personality development on being an athlete.
4. Explain basic learning principles that shape sport behavior.
5. Examine the effects of anxiety and arousal on competitive performance.
6. Compare and contrast the principles and effectiveness of "goal setting."
7. Describe contemporary approaches to anxiety reduction and performance enhancement.
8. Examine motivation theories and their application to sport performance.
9. Identify the social and psychological dimensions of sport.
10. Examine aggression and its relationship to sport behavior.
11. Distinguish between accurate and misinformation about the "minority" athlete.
12. Examine the psychological concepts of high-risk sports and the elite athlete.
13. Identify performance-enhancing drugs and affects on sport behavior.
14. Describe the socialization and psychological variables in the female sport experience.
15. Identify the relationship between good communication skills, effective coaching, and athlete performance.

16. Define the affective benefits of physical fitness and exercise psychology.
17. Examine the psychological growth and maintenance of good sporting behavior.

## **Topics and Scope:**

- I. Introduction to Sport and Exercise Psychology
  - A. Main Theoretical Elements of Psychology
  - B. Define Sport and Exercise Psychology
  - C. Review the History of Sport and Exercise Psychology
  - D. Distinguish Between Two Specialties
  - E. Understand Correlation Between Science and Practice
- II. Professional Issues in Sport Psychology
  - A. Training for the Profession
  - B. Ethical Principles
  - C. Employment Opportunities
- III. Personality and Sport
  - A. Define Personality Structure
  - B. Cognitive Strategies and Success
  - C. Identifying Athletes' Role in Understanding Personality
- IV. Behavioral Principles and Applications
  - A. Classical Conditioning and Operant Learning Theories
  - B. Behavioral Coaching Techniques
  - C. Conditioned Reinforcers
  - D. Learned Helplessness
- V. Anxiety and Arousal
  - A. Effects of Anxiety on Competitive Performance
  - B. Effects of Arousal on Competitive Performance
  - C. Psychological Measures of Anxiety and Arousal
  - D. The Inverted-U Hypothesis
- VI. Goal-Setting System for Sports
  - A. Principles of Goal Setting
  - B. Common Problems in Goal Setting
  - C. Setting Performance Goals in Sport
- VII. Anxiety Reduction and Stress Management
  - A. Defining Stress and Measuring Anxiety
  - B. Identifying Sources of Stress
  - C. Mental Toughness and Hypnosis
  - D. Yoga, Zen, and Transcendental Meditation
- VIII. Motivation and Sport
  - A. Attribution Theory and Need Achievement
  - B. Locus of Control and Self Theory
  - C. Using Achievement Motivation in Professional Practice
  - D. Collective or Team Efficacy
- IX. Social Psychology of Sport
  - A. Leadership and Group Cohesion
  - B. Research on the Multidimensional Model of Sport Leadership
  - C. Four Components of Sport and Exercise Leadership
  - D. Interactive Audience Effects on Sport Performance
- X. Aggression: Dimensions and Theories
  - A. Provoked and Unprovoked Aggression
  - B. Hostile Aggression and Sport Assertiveness
  - E. Theories of Aggression

- D. Sport-Related Variables Affecting Aggression
- XI. Minority Athletes
  - A. The African American Athlete
  - B. The Hispanic Athlete
  - C. The Asian American Athlete
  - D. The Native American Athlete
  - E. The Gay Athlete
- XII. High-Risk Sport and The Elite Athlete
  - A. Correlation Between Participation and Performance in High-Risk Sports
  - B. Research on Exceptional Performance
  - C. Kroll's Personality Performance Pyramid
- XIII. "Doping" in Sports
  - A. "Win-At-All-Cost" Philosophy
  - B. Substances and Methods Prohibited at All Times
  - C. Substances Prohibited In and Out of Competition
  - D. Efforts to Control Doping in Sports
- XIV. The Female Sport Experience
  - A. Historical and Current Issues of Women's Sports
  - B. Socialization of Women Into Sport
  - C. Psychological Variables
  - D. Traditional Gender Role Expectations
- XV. Communication, Effective Coaching, and Athlete Performance
  - A. Sending and Receiving Messages Effectively
  - B. Recognizing Breakdowns in Communication
  - C. Delivering Constructive Criticism
  - D. Components of Effective Communication
- XVI. Exercise and Psychological Well-Being
  - A. Reducing Anxiety and Depression With Exercise
  - B. Changing Personality and Cognitive Functioning with Exercise
  - C. Understanding Exercise's Effect on Psychological Well-Being
  - D. Using Exercise as an Adjunct to Therapy
- XVII. Facilitating Psychological Growth and Understanding
  - A. Burnout and Overtraining
  - B. Managing Eating Disorders and Substance Abuse
  - C. Character Development and Good Sporting Behavior

**Assignment:**

1. Read approximately 25-35 pages per week and discuss assigned material in the textbook and supplements
2. Term/research paper (minimum of 1250 words) or project(s) may be used for the purpose of learning research skills, enhancing course knowledge, and improving writing skills
3. Oral presentation(s) and/or group project(s) may be assigned
4. Midterm exam(s)
5. Final exam or project

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, term or research papers; a minimum of 1,250 words for the course.

Writing  
10 - 25%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving  
0 - 0%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations  
0 - 0%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes, exams and/or essay

Exams  
75 - 90%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Oral presentations and/or group projects

Other Category  
0 - 15%
