COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Identify and summarize the elements of high performance teams.
2. Examine the stages of group development and the best techniques for progressing through the stages.
3. Determine group and leadership styles, with emphasis on production and relationship characteristics.

Objectives:

At the conclusion of this course, the student should be able to:

1. Identify and apply group/team ground rules and behavioral expectations.
2. Differentiate between the stages of group/team development.
3. Determine techniques for moving through the stages of group/team development.
4. Distinguish between production functions and relationship functions and identify role functions in a group.
5. Determine production and relationship styles for effective situational leadership.
6. Examine the elements of a high performance team.
7. Determine the roles of the meeting facilitator/group leader.
8. Distinguish between types of meetings, agendas, and minutes.
9. Differentiate between methods of decision making for groups/teams, considering the time and commitment required.
10. Identify and apply the steps in a traditional decision making model.
11. Assess reward systems for group/team and identify rewards that could be considered motivational and/or de-motivational for team building.
12. Compare and select evaluation instruments for group/ team performance as a team member and as a team leader.

Topics and Scope:

1. Group Rules, Norms, and Behavioral Expectations
2. Stages of Group Development
3. Production and Relationship Functions
4. Role Functions in a Group
5. Role Functions of the Meeting Facilitator/Group Leader
6. Situational Leadership
7. High Performance Teams
8. Meetings, Agendas, and Minutes
