		Contact Total	5.00		Contact Total	87.50
		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 70.00

Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly:

**Catalog Description:**  
Introduction to the field of landscape contracting, including cost estimating and bidding procedures. Course includes hands-on experience with tools, materials, and methods used in the construction of wood and simple concrete and masonry landscape features. This course also prepares students for the C-27 landscape contractor's licensing exam and national industry certification. This course requires students to: walk, stand, crouch for long periods of time and carry out strenuous physical tasks; work with hand tools, power tools, and landscape materials; work outdoors in various conditions including heat, humidity, rain, dust, noise, and cold; and lift up to 50 pounds repeatedly within a 3 hour period.

**Prerequisites/Corequisites:**

**Recommended Preparation:**  
Eligibility for ENGL 100 OR EMLS 100 (formerly ESL 100) or equivalent

**Limits on Enrollment:**

## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Interpret landscape plans; select lumber, tools, materials and estimate the costs for a construction project.
2. Design basic masonry landscape features and select materials for construction.
3. Demonstrate the necessary skills for successful performance on the C-27 landscape contractor's licensing exam.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Evaluate careers in the landscape industry.
2. Describe C-27 licensing requirements.
3. Interpret landscape plans in order to construct a specific landscape element.
4. Select lumber, tools, and materials for basic landscape construction projects.
5. Estimate the cost of materials and labor for basic landscape construction projects.
6. Describe the various materials that can be used to construct a fence.
7. Design basic wood landscape features.
8. Calculate riser to tread ratios for step construction.
9. Construct a simple wood landscape structure.
10. Mix, pour, and finish concrete to form a patio or walkway landscape feature.

11. Compare alternate pavings for patio and walkway areas.
12. Estimate the cost of materials for simple concrete and masonry landscape features.
13. Design basic masonry landscape features and select materials for construction.
14. Construct a simple landscape feature using brick or paving materials.

## **Topics and Scope:**

- I. Introduction
- II. Scope of the Landscaping Contracting Industry
  - A. Professions
  - B. Scope of work
- III. California State Contractors Laws, Rules, and Regulations
  - A. Licensing
  - B. C-27 exam
  - C. Fees
  - D. Requirements
  - E. Scope of license
  - F. Exemptions
- IV. Estimating Procedures
- V. Lumber and its uses
- VI. Fence Design
  - A. Purpose
  - B. Construction elements
    1. Post & rail spacing
    2. Footings
    3. Fasteners
  - C. Styles
- VII. Gate Design
  - A. Relationship to the fence
  - B. Frame construction
  - C. Hardware/fasteners
  - D. Hanging techniques
- VIII. Deck Design
  - A. Purpose
  - B. Construction elements
  - C. Ground level vs. raised (comparisons)
  - D. Decking options
  - E. Fastener options
- IX. Garden Step Design
  - A. Purpose and uses
  - B. Riser/tread ratios
  - C. Construction elements
  - D. Fastener options
- X. Retaining Wall Design
  - A. Purpose
  - B. Material selection
  - C. Construction specifications
  - D. Drainage concerns
- XI. Masonry Elements
  - A. Uses
  - B. Characteristics
  - C. Industry specifications

## XII. Walkway and Patio Design

- A. Construction elements
- B. Industry specifications
- C. Site preparation
- D. Installation procedures
  - 1. Headers
  - 2. Base
  - 3. Dry vs. wet

## XIII. Raised Planter and Retaining Wall Design

- A. Construction elements
- B. Industry specifications
- C. Site preparation
- D. Installation procedures
  - 1. Foundation
  - 2. Unit courses
  - 3. Mortar techniques

NOTE: All topics covered in lecture are also covered in lab.

### Assignment:

#### Lecture-related Assignments

- 1. Weekly readings (10-20 pages per week)
- 2. Written homework assignments
- 3. Prepare list of materials and cost estimates for two-ten projects
- 4. Quizzes (2-12)
- 5. One midterm and final Exam
- 6. Field trip reports (1-8)

#### Lab-related Assignments

- 1. Demonstrate proper use of hand and power tools
- 2. Design, construct, and install simple wood landscape structures
- 3. Design a concrete patio and walkway
- 4. Design masonry patio and walkway
- 5. Design masonry retaining wall
- 6. Construct and install simple wood, concrete and/or masonry landscape element
- 7. Field trips required (1 - 8)

### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Homework, Field trip reports
------------------------------

Writing 5 - 15%
--------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Material and labor cost estimates	Problem solving 20 - 30%
<b>Skill Demonstrations:</b> All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
Design and construction projects including tool use	Skill Demonstrations 30 - 40%
<b>Exams:</b> All forms of formal testing, other than skill performance exams.	
Quizzes and exam	Exams 20 - 30%
<b>Other:</b> Includes any assessment tools that do not logically fit into the above categories.	
Participation, including field trip attendance	Other Category 0 - 20%

### **Representative Textbooks and Materials:**

State Contracting Board, California Contractors License Law & Reference. Lexis Nexis. Current edition

All About Decks. Erickson, Larry. Ortho Books. 2000 (classic)

All About Fences & Gates. Johnston, Larry. Ortho Books. 2001 (classic)

Landscape Construction. 3rd ed. Sauter, David. Cengage L. 2010 (classic)

California Landscape Standards. California Landscape Standards Committee. 1989 (classic)

All About Patios. Erickson, Larry. Ortho Books. 2000 (classic)

All About Masonry Basics. Erickson, Larry. Ortho Books. 2000 (classic)
