Title 5 Category: AA Degree Applicable
Grading: Grade or P/NP
Repeatability: 08 - May Be Taken for a Total of 6 Units
Also Listed As:
Formerly: ART 390.70

Catalog Description:
An introductory course in computer illustration. Postscript, high resolution graphics and type will be produced using Aldus Freehand on the Macintosh computer. Students should already be familiar with the Macintosh computer and digitizing scanners.

Prerequisites/Corequisites:

Recommended Preparation:
Art 18.1 (formerly Art 18A, Art 18, Art 70) or familiarity with the Macintosh computer.

Limits on Enrollment:

Schedule of Classes Information:
Description: Introduction to the creative potential of the most popular sophisticated Post-Script illustration program: Aldus Freehand. students should be familiar with the use of the Macintosh computer and digitizing scanners. Projects will involve drawing original images, creating graphics, and manipulating. (Grade or P/NP)
Prerequisites/Corequisites:
Recommended: Art 18.1 (formerly Art 18A, Art 18, Art 70) or familiarity with the Macintosh

computer.
Limits on Enrollment:
Transfer Credit:
Repeatability: May Be Taken for a Total of 6 Units

COURSE CONTENT

Outcomes and Objectives:
1. Explore the principles of computer illustration emphasizing the use of high resolution scanners and printers
2. Use the computer, digitizers and postscript printers for professional results with both graphics and type
3. Develop a working vocabulary of terms of computer illustration, scanning and postscript printing
4. Examine and analyze good examples of computer illustration

Topics and Scope:

1. Apply theory of Postscript illustration to the Macintosh computer and Laserwriter
2. Create high resolution graphics and type using the computer, scanner and printer
3. Explore graphic and type elements separately and in combination
4. Analyze the work of other graphic designers using the computer

Assignment:

1. Simple tool uses
2. Combining tools for complex effects
3. Typography
4. Combining type and graphics
5. Digitizing techniques
6. Printing techniques and short cuts

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, PORTFOLIO

Skill Demonstrations
30 - 100%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
