## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Expand upon their foundational knowledge and skills through independent study or projects.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Find relevant resources for investigating, developing, and completing engineering projects.
2. Document their knowledge of the sub-topics or components of the study topic or project.
3. Achieve the objectives outlined in the special studies application.

### **Topics and Scope:**

The course content will focus on either directed research on engineering topics or the design and construction of an engineering related project.

Content will vary depending on student interest and instructor availability. Typically, the course involves a project requiring a design phase, a construction and testing phase, and a demonstration phase.

### **Assignment:**

Course will typically include the construction and presentation of an engineering related project with related design documentation. Assignments will be outlined in the independent studies application.

### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Related design documentation

Writing  
1 - 100%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Construction of an engineering related project

Problem solving  
0 - 99%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Presentation of an engineering topic or project.

Skill Demonstrations  
0 - 50%

**Exams:** All forms of formal testing, other than skill performance exams.

None

Exams  
0 - 0%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None

Other Category  
0 - 0%

### **Representative Textbooks and Materials:**

Written resources will vary with project content.
