COURSE CONTENT

Outcomes and Objectives:

1. Demonstrate knowledge of information on a standard medical history and how medical conditions and patient's medications alter or compromise dental treatment.
2. Demonstrate the procedure of taking and recording vital signs and identify normal limits.
3. Describe the types of medical emergencies that may be encountered in a dental office and discuss the role of staff members in preventing and managing these emergencies.
4. Discuss and demonstrate the assistant's role in diagnosis, data gathering and treatment planning.
5. Identify and demonstrate the use, care and maintenance of each piece of dental equipment in the treatment room and laboratory.
6. Describe the clock concept of operating zones, explain the uses of each zone and demonstrate positioning of operator, assistant, and patient for each zone.
7. Identify and state the use and maintenance of hand and rotary instruments commonly used in dental procedures.
8. Demonstrate the exchange of instruments, handpieces, and materials at chairside.
9. Demonstrate and describe the use of preset trays and tubs in organizing dental instruments and materials by procedure.
10. Demonstrate the assembly adjustment and positioning of the HVE tip and mirror for retraction, and oral debriement in each area of the oral cavity.
11. Demonstrate the placement of typical anesthetic ointment prior to an injection of local anesthetic solution on maxillary and mandibular

arches.

12. Demonstrate the preparation of an aspirating local anesthetic syringe, cartridge and needle.

Topics and Scope:

- I. Medical History
 - A. Components
 - B. Application to Dental Procedures
- II. Medical Emergencies
 - A. Emergency Procedures
 - B. Prevention
- III. The Dental Operator
 - A. Equipment, Use, and Care
 - B. Seating of the Patient, Operator, and Assistant
 - C. Operating Zones
 - D. Instrument Exchange
 - E. Oral Evacuation
- IV. Instruments
 - A. Hand Instruments
 - B. Rotary Instruments
- V. Local Anesthesia
 - A. Topical Anesthesia
 - B. Assembly of Equipment

Assignment:

Reading assignments in texts and course syllabus.
Two written reports (2-3 pages each).

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Lab reports, Quizzes, Exams

Problem solving
30 - 75%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams

Skill Demonstrations
15 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
10 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
