# **COURSE CONTENT**

## **Outcomes and Objectives:**

The aim of this course is to:

- 1. Present a chronological survey of Spanish literature in English translation so that students having little or no knowledge of Spanish can appreciate Spanish literary masterpieces.
- 2. Primarily focus on complete works by major Spanish authors who are universally known and whose writings still have considerable relevance to 20th century readers.

The main focus of this course will be on:

- 1. Works themselves as literature, and lectures will aim at helping students to understand and appreciate works read.
- 2. Students will be encouraged to ask questions and to share and critique each other's ideas in class discussions.
- 3. The instructor will try to show what is specifically "Spanish" (as well as universal) in Spanish literature and to foster a sensitivity to ideas and values within a culture that is in many respects very different from their own.

## **Topics and Scope:**

The course will provide:

- 1. An introduction to each historical period so that students can understand the context within which the various authors wrote.
- 2. Familiarize students with the main social, political and artistic trends of each period, and these will be related to such questions as the author's motivations in writing and the content and style of his or her works.
- 3. Significant biographical details will be provided for each author.

### Assignment:

- 1. There will be 3 tests (one on each of the first three chapters) as well as a final (cumulative, but with an emphasis on the final time period).
- 2. The tests will contain an initial factual component (Multiple choice, quote identification, brief informational questions).
- 3. This will test the student's knowledge of historical background, author's biographies, and the contents of works read.
- 4. A second part will consist of several essay questions which will allow students to exercise their critical abilities by analyzing and interpreting aspects of works that have been read.

### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Reading reports, Lab reports, Essay exams, IN-CLASS DICTATION, PARAPHRASE

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams

**Exams:** All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

**Other:** Includes any assessment tools that do not logically fit into the above categories.

COMPLETION OF SEMESTER'S LANGUAGE LAB HOURS

#### **Representative Textbooks and Materials:**
