## Catalog Description:

Quantitative methods and their uses for solving organizational problems. Development of skills in mathematics, quantitative analytical tools, financial calculations and analysis, statistics and presentation of data in a managerial context.

## Prerequisites/Corequisites:

## Recommended Preparation:

Successful completion of standard 1st year high school algebra course.

## Limits on Enrollment:

## Schedule of Classes Information:

Description: Quantitative methods and their uses for solving organizational problems.
Development of skills in mathematics, quantitative analytical tools, financial calculations and analysis, statistics and presentation of data in a managerial context. (Grade Only)
Prerequisites/Corequisites:
Recommended: Successful completion of standard 1st year high school algebra course. Limits on Enrollment:

Transfer Credit: CSU;
Repeatability: Two Repeats if Grade was D, F, NC, or NP

Both Certificate and Major Applicable

## COURSE CONTENT

## Outcomes and Objectives:

Upon completion of the course, students will be able to:

1. Calculate fundamental math operations in a variety of common modes.
2. Design, manipulate, and solve basic equations.
3. Formulate and solve quantitative operations in the areas of purchasing, pricing, depreciation, and inventory management.
4. Analyze data, including financial statements.
5. Calculate and compare loans and investments.
6. Assemble, arrange, and calculate statistical data.

## Topics and Scope:

A. Basic mathematics operations

1. numerical operations
2. solving equations
B. Mathematics for business
3. purchasing
4. pricing
5. inventory and overhead
6. depreciation
7. financial statement analysis and distribution of profits
C. Financial mathematics
8. simple interest and simple discount
9. compound interest
10. amortizing a debt
11. comparing investments
D. Mathematics for presentation and analysis of information
12. elementary statistics
13. graphs

## Assignment:

1. Problem solving exercises in all of the content areas
2. Weekly quizzes
3.4-5 exams and a final

## Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments are more appropriate for this course.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.

Homework problems

Problem solving 10-20\%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

## None

Exams: All forms of formal testing, other than skill performance exams.

Quizzes, exams, and final
Exams
80-90\%
Other: Includes any assessment tools that do not logically fit into the above categories.

## None

Other Category
0-0\%

## Representative Textbooks and Materials:

Contemporary Mathematics for Business and Consumers, author Robert A. Brechner 5th ed. 2008, South-Western Cengage Learning.
