Total Out of Class Hours: 52.50

Total Student Learning Hours: 105.00

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As: ERTHS 85.2

Formerly:

Catalog Description:

A survey of the natural history of the Pepperwood Preserve, emphasizing the flora, fauna, and ecology (offered Spring semester only). Laboratory hours are primarily in the field and will include hiking over uneven terrain. This course (along with BIO/ERTHS 85.1) is a component of the Pepperwood Preserve Steward training program

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 1A or equivalent

Limits on Enrollment:**Schedule of Classes Information:**

COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of the course, students will be able to:

1. Explain the discipline and scope of natural history.
2. Interpret the land use and natural history of the Pepperwood Preserve.
3. Orient themselves to the geography of the Pepperwood Preserve.
4. Record field observations in a field notebook.
5. Integrate and differentiate the ecological and adaptive characteristics of riparian and wetland ecosystems, woodlands and forests.
6. Evaluate and differentiate the ecological and adaptive traits of wildflowers, vertebrates and invertebrates, and identify a selection of common species.
7. Employ and interpret techniques for sampling and monitoring flora and fauna.
8. Demonstrate naturalist and/or land steward skills.

Topics and Scope:

I. Introduction to Natural History

- A. The discipline of natural history and the scientific method
- B. Natural history of Pepperwood
 1. Overview of regional and local history at Pepperwood
 2. Land use history at Pepperwood
 3. Orientation to the preserve
- C. Writing a field notebook

II. Community Ecology

- A. Overview of species interactions, adaptation, and the ecological niche
- B. Vegetation factors
 1. Components of community structure
 2. Ecosystem function
- C. Plant communities at Pepperwood

- D. Management issues at Pepperwood
- III. Plants
 - A. General characteristics of plants
 - B. Overview of major taxonomic groups
 - C. Seed plants: morphology and reproduction
 - D. Common plants at Pepperwood
 - E. Evolutionary processes in wildflowers
- IV. Animals
 - A. General characteristics of animals
 - B. Overview of major taxonomic groups, emphasizing terrestrial arthropods and chordates
 - C. Animal adaptations to life on land
 - D. Common animals at Pepperwood
 - E. Methods of observing and identifying animals
- V. Methods of Natural History Interpretation
 - A. Effective oral communication for target audience
 - B. Use of demonstration materials
 - C. Planning of interpretation event for target audience

Assignment:

1. Reading from selected journal papers and texts: 20-30 pages per week
2. Quizzes: (3- 5) multiple choice and short answer questions
3. Oral presentation demonstrating skills as a natural history interpreter
4. Completion of a field notebook
5. Final exam: multiple choice and short answer questions

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Field notebook	Writing 20 - 40%
----------------	---------------------

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None	Problem solving 0 - 0%
------	---------------------------

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Oral presentation	Skill Demonstrations 10 - 20%
-------------------	----------------------------------

Exams: All forms of formal testing, other than skill performance exams.

Quizzes and final exam	Exams 40 - 50%
------------------------	-------------------

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance

Other Category 10 - 20%
