5. Use simple queries to extract useful information from the database.
6. Use the Wizard to create simple reports.
7. Design and create forms.
8. Create presentations with text and graphic objects using Microsoft PowerPoint.
9. Share documents and information between Office programs.
10. Choose the appropriate type of software to accomplish a given task.

**Topics and Scope:**

A. Common elements between programs in Office

1. Office button
2. Ribbon
3. Tabs
4. Groups

5. Wizards
6. Templates
- B. Word processing in Word
  1. Creating a simple document
  2. Spell check
  3. Formatting
    - a. Character
    - b. Paragraph
    - c. Document
  4. Printing
  5. Tables
  6. Inserting clip art and other graphics
  7. Styles
  8. Find and Replace
  9. Mailings
  10. Headers and Footers
- C. Spreadsheets with Excel
  1. User interface with Excel
  2. Rows/Columns/Cells/Cell Contents
  3. Entering - Values/Text/Formulas
  4. Editing
  5. Formatting
  6. Using formulas
    - a. Order of precedence
    - b. Functions
    - c. Absolute references
  7. Charts
- D. Database with Access
  1. Organization of database structure
  2. Creating and editing a simple database
  3. Querying a database
  4. Creating reports
- E. Presentations with PowerPoint
  1. Creating presentations
  2. Entering and formatting text
  3. Creating and running slide shows
- F. Sharing data between Office programs
  1. OLE [Object Linking and Embedding]
  2. Clipboard
  3. Integrated applications
    - a. Embedding an Excel worksheet in a Word document
    - b. Linking an Access database file to a Word document
    - c. Integrating Word, Excel, Access and PowerPoint in a common document

**Assignment:**

1. Weekly computer problem-solving assignments
2. Quizzes (2-6)
3. Final exam, written and practical component of final exam
4. Reading (20-40 pages per week)
5. Projects reflecting the various applications

## Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing  
0 - 0%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Computer problem solving assignments

Problem solving  
25 - 50%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Projects and practical component of final exam

Skill Demonstrations  
15 - 25%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes and Exam: Multiple choice, true/false, completion

Exams  
25 - 50%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Other Category  
0 - 10%
