## **COURSE CONTENT**

### **Outcomes and Objectives:**

Upon completion of the course, students will be able to:

1. Identify the three elements that influence wildland fire behavior.
2. Describe the elements of the ICS and an IAP as they relate to I-Zone firefighting.
3. Describe the duties and responsibilities of a strike team company officer.
4. Describe the communication process as it relates to I-Zone firefighting.
5. Describe the elements of size-up as they relate to I-Zone firefighting and the key components of a report on conditions.
6. Identify the different types of resources used in I-Zone firefighting and their capabilities.
7. Demonstrate firefighter safety and survival in the I-Zone setting.
8. Describe the principles of evacuation as they relate to I-Zone firefighting.
9. Describe the procedures for structural triage and protection in the I-Zone.
10. Demonstrate the ability to perform I-Zone firefighting simulations.

### **Topics and Scope:**

1. Introduction
  - a. Orientation and administration
  - b. Authority
2. Fire Environment

- a. Fire behavior and weather
- b. Fire prediction systems
- 3. ICS
  - a. Review of ICS
  - b. Duties and responsibilities of the company officer
  - c. Incident Action Plans
- 4. I-Zone Operational Principles
  - a. Resources
  - b. Communications
  - c. Strategy and tactics
  - d. I-Zone size-up
  - e. Report on conditions
- 5. Safety and Survival
  - a. Introduction of safety and survival in the I-Zone
  - b. The risk management process
  - c. Entrapment avoidance
  - d. Last resort survival
  - e. Properly refusing risk
    - f. Firefighter fatalities and near-miss case studies
- 6. I-Zone Incident Operations
  - a. Pre-incident operations
  - b. Incident operations
  - c. Post-incident operations

**Assignment:**

- 1. Reading 20-80 pages between sessions
- 2. Short written response to readings
- 3. 2-5 individual written and performance exercises, including an IAP
- 4. 5-10 group written and performance exercises, including an IAP
- 5. I-Zone firefighting simulation exercises
- 6. CFSTES manual worksheets
- 7. State certification exam

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

|   |
|---|
| Individual and group writing exercises, including IAP reading responses |
|---|

|                    |
|--------------------|
| Writing<br>5 - 10% |
|--------------------|

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

|  |
|--|
| I-Zone firefighting simulation exercises |
|--|

|                            |
|----------------------------|
| Problem solving<br>5 - 10% |
|----------------------------|

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

I-Zone firefighting simulation exercises

Skill Demonstrations  
5 - 10%

**Exams:** All forms of formal testing, other than skill performance exams.

State certification exam

Exams  
70 - 80%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None

Other Category  
0 - 0%

**Representative Textbooks and Materials:**

CFSTES Manual Fire Command 1C by California Fire Service Training and Education System, Sacramento, CA 2004

ICS 420-1 Field Operations Guide, Firescope, 2004

S-190, Introduction to Wildland Fire Behavior, National Wildfire Coordinating Group (NWCG), 2006
