Total Out of Class Hours: 105.00

Total Student Learning Hours: 157.50

Title 5 Category:	AA Degree Applicable
Grading:	Grade or P/NP
Repeatability:	00 - Two Repeats if Grade was D, F, NC, or NP
Also Listed As:	
Formerly:	

Catalog Description:

Introduction to basic physical and biological sciences, including chemistry, physics, anatomy, physiology, microbiology, metric system and basic biomath.

Prerequisites/Corequisites:

Recommended Preparation: Eligibility for ENGL 100 or ESL 100.

Limits on Enrollment:

Schedule of Classes Information:

Description: Intro to basic physical & biological sciences. Chemistry, physics, anatomy, physiology, microbiology, metric system & basic biomath. (Grade or P/NP) Prerequisites/Corequisites: Recommended: Eligibility for ENGL 100 or ESL 100. Limits on Enrollment: Transfer Credit: Repeatability: Two Repeats if Grade was D, F, NC, or NP

Certificate/Major Applicable:

Both Certificate and Major Applicable

COURSE CONTENT

Outcomes and Objectives:

The students will:

- 1. Develop a deeper and broader perspective of the intricacies of human body structure and function.
- 2. As a result of 1, significantly increase their appreciation, not only for the human body, but for the rationale behind practices and procedures currently employed by clinical medical science.
- 3. As a result of 1, acquire a relatively detailed knowledge which can be recalled, as needed, in future career-related course work, and in clinical learning situations.
- 4. As a result of 1, develop and experience a greater sense of confidence in functioning within clinical settings.
- 5. Further develop a sense of academic integrity and respect for scienctific reasoning, as acquired through repeated observations of the instructor's behavior.
- 6. Acquire a clearer perspective of his own academic potential in relation to his chosen career.
- 7. Increase his capacity to assimilate, digest, and correlate relatively large amounts of information in a relatively short span of time, presumedly increasing his potential to benefit more from future training sessions.

Topics and Scope:

- 1. Basic principles of chemistry.
- 2. Basic principles of physics.
- 3. Mathematical concepts.
- 4. Anatomy and physiology. A. General.
 - B. Skeletal system.
 - C. Muscular system.

- D. Neuroendocrine system.
- E. Cardiovascular system.
- F. Respiratory system.
- G. Digestive system.
- H. Renal system.
- I. Reproductive systems.
- J. Integumentary system.
- J. Principles of immunology.

Assignment:

ÿAs this is a begining level college course, most enrollees enter wi h

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.

None

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Other: Includes any assessment tools that do not logically fit into the above categories.
