## **COURSE CONTENT**

**Outcomes and Objectives:**

Upon completion of this course, the student will be able to:

1. Discuss the implications of law and ethics to the medical professional in a variety of health care settings.
2. Identify how to function effectively and responsibly as the physician's agent.
3. Discuss the legal relationship between the medical assistant and supervising licensed healthcare professionals.
4. Define terminology related to medical law and ethics.
5. Discuss and describe the Medical Practice Act and its implications for physicians and medical assistants in the medical offices.
6. State the regulations and accompanying medical assisting office practices defined by federal, state, and local regulations.
7. Describe the medical assistant's role in obtaining informed consent and list the components of informed consent.
8. Describe the components of a legal contract and distinguish between expressed and implied contracts.
9. Identify situations violating confidentiality and propose solutions for maintaining confidentiality as shown by HIPAA (Health Insurance Portability and Accountability Act of 1996) confidentiality laws.
10. Use problem-solving techniques to recognize and address ethical situations related to the medical assistant's role.
11. List the tasks that the clinical and administrative medical assistant can and cannot perform under California law.

12. Describe the required training for clinical and administrative medical assistants.
13. State patient's rights as defined by the American Hospital Association.
14. Identify common medical office practices that have ethical implications.
15. Show professionalism and exhibit mutual respect for other healthcare professionals and patients.
16. Describe safe practices used in the medical office/clinical setting.
17. Compare and contrast the scope of practice for both a clinical and administrative medical assistant.
18. Examine personal and cultural values.
