### **COURSE CONTENT**

**Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Apply the knowledge required to care for an ill or injured person in the pre-hospital setting.
2. Demonstrate clinical decision making skills required to formulate a treatment plan for a patient of any age.
3. Demonstrate proficiency in all psychomotor skills outlined in the California state regulations, Health and Safety Code, Title 22 and the National Registry of Emergency Medical Technician.
4. Demonstrate personal behaviors consistent with professional and employer expectations while caring for an ill or injured person.
5. Demonstrate ability to function as a competent, safe beginning paramedic.

**Objectives:**

At the conclusion of this course, the student should be able to:

1. Demonstrate verbal and written communication skills with patients, families, and members of health care team
2. Demonstrate ability to independently perform a thorough patient assessment on an adult or pediatric patient with a medical complaint or traumatic injury
3. Integrate clinical findings to determine a treatment plan for the adult or pediatric patient with a medical complaint or traumatic injury in the pre-hospital setting
4. Demonstrate affective behaviors expected of a professional paramedic
5. Demonstrate ability to deliver the full continuum of care to a patient in the pre-hospital setting

6. Demonstrate ability to function as team leader at the scene of a pre-hospital emergency
7. Demonstrate all methods of delivering oxygen therapy
8. Demonstrate the ability to establish venous access
9. Calculate drug doses and drip rates
10. Demonstrate proper technique in giving an intravenous, intraosseous, intramuscular, subcutaneous, and oral medication
11. Demonstrate basic and advanced airway management techniques
12. Demonstrate skills necessary to splint/immobilize all types of soft tissue and musculoskeletal injuries
13. Demonstrate assessment and management of a patient with a traumatic injury in the pre-hospital setting
14. Recognize normal and abnormal cardiac rhythms
15. Administer appropriate medication to treat abnormal cardiac rhythms
16. Demonstrate assessment and management of a patient with a cardiovascular emergency in the pre-hospital setting
17. Demonstrate assessment and management of a patient with a respiratory emergency in the pre-hospital setting
18. Demonstrate assessment and management of a patient with an identified medical emergency of the endocrine, nervous, gastrointestinal, genitourinary (GI/GU) and reproductive systems in the pre-hospital setting
19. Demonstrate assessment and management of a patient under the influence of alcohol or other chemical substance in the pre-hospital setting
20. Demonstrate proper technique of handling infectious disease issues in the pre-hospital setting
21. Assist in a normal labor and delivery in the pre-hospital setting
22. Assess and manage complications of an obstetrical patient in the pre-hospital setting
23. Demonstrate assessment and treatment of a neonate in the pre-hospital setting
24. Demonstrate management of a patient exhibiting a behavioral emergency in the pre-hospital setting

## **Topics and Scope:**

- I. Leadership
  - A. Delegation
  - B. Scene control
  - C. Team leader
  - D. Communication
  - E. Professionalism
- II. Assessment and Management
  - A. Patient assessment
  - B. Airway management and oxygen therapy
  - C. Intravenous cannulation
  - D. Medication administration
- III. Medical Emergencies
  - A. Cardiology
  - B. Respiratory
  - C. Endocrine
  - D. Neurology
  - E. Gastrointestinal/gastrourological
  - F. Reproductive
    1. Normal Labor and Delivery
    2. Complications of Delivery

## Assignment:

1. Work 12-56 hr/week (preceptor schedule)
2. Minimum of 40 Advanced Life Support patient contacts
3. Meet minimum number of patient contacts, pathology, and chief complaints as set by Committee on Accreditation of Emergency Medical Services Professionals
4. Affective and performance evaluations
5. Track patient assessments and skills (documentation)
6. Complete minimum of 40 patient care reports
7. Attendance as mandated by Title 22

## Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Patient care reports

Writing  
5 - 10%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Team leader on advanced life support ambulance

Problem solving  
40 - 50%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Title 22 scope of practice mandated skills

Skill Demonstrations  
40 - 50%

**Exams:** All forms of formal testing, other than skill performance exams.

None

Exams  
0 - 0%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Affective behaviors, attendance, documentation

Other Category  
5 - 10%
