Certificate Applicable Course

COURSE CONTENT

Outcomes and Objectives:

Upon completion of the course, students will be able to:

1. Identify a minimum of eight common breeds of sheep and discuss in a group setting.
2. Analyze sheep by production data and live appraisal.
3. List common diseases and parasites and their control.
4. Perform basic scientific management procedures such as docking, castration, and shearing.
5. Compare different feeding formulations as it pertains to sound management.
6. Describe and appraise the function of the reproduction system.
7. Calculate the cost of sheep handling facilities and equipment.
8. Identify cultural contributions and ethnic influences on the sheep industry.
9. Describe career opportunities and requirements for successful employment.

Topics and Scope:

1. History and Development of the Sheep Industry
 - a. Local
 - b. State
 - c. Global
 - d. Cultural contributions and ethnic influences of the industry
2. Breeding
 - a. Breeds of sheep
 - b. Genetic concepts
 - c. Genetic value
 - d. Selection
 - e. Mating systems

- f. Inherited defects
- 3. Health
 - a. Diseases of lambs, ewes, and rams
 - b. Parasitic disease
 - c. Plant poisoning
 - d. Management calendar for disease prevention
- 4. Management
 - a. Starting a sheep operation
 - b. Financial and marketing considerations
 - c. Management of wool
 - d. Using pasture and range efficiently
 - e. Selection and culling sheep
 - f. Lamb feeding procedures
- 5. Nutrition
 - a. Nutrient requirements
 - b. Formulating rations
 - c. Creep feeding lambs
 - d. Feed additives
 - e. Computer feeding programs
- 6. Reproduction
 - a. Factors affecting reproduction in the ewe
 - b. Pregnancy testing
 - c. Factors affecting reproduction in the ram
 - d. Semen collection and artificial insemination
- 7. Marketing
 - a. Supply, demand, and prices
 - b. Marketing channels
 - c. Producer marketing decisions
 - d. Industry issues

Assignment:

Lecture Assignments:

Read periodicals, handouts, and textbooks (20 pages per week).

Term papers (6 to 8 pages)

Midterms (2)

Final Exam

Lab Assignments:

Lab Worksheets (16--one per week).

Sheep Shearing

Livestock Showing

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

| | |
|---|----------------------------------|
| Lab reports, term papers | Writing 20 - 30% |
| Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills. | |
| None | Problem solving 0 - 0% |
| Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams. | |
| Class performances, field work, performance exams | Skill Demonstrations 30 - 40% |
| Exams: All forms of formal testing, other than skill performance exams. | |
| Quizzes, tests, exams | Exams 30 - 40% |
| Other: Includes any assessment tools that do not logically fit into the above categories. | |
| Attendance and participation | Other Category 0 - 10% |
