### MACH 162 Course Outline as of Spring 2021

### **CATALOG INFORMATION**

Dept and Nbr: MACH 162 Title: BLUEPRINT READ FOR MACH

Full Title: Blueprint Reading for Machine and Related Industries

Last Reviewed: 3/9/2020

Units		Course Hours per Week		Nbr of Weeks	<b>Course Hours Total</b>	
Maximum	3.00	Lecture Scheduled	3.00	17.5	Lecture Scheduled	52.50
Minimum	3.00	Lab Scheduled	0	6	Lab Scheduled	0
		Contact DHR	0		Contact DHR	0
		Contact Total	3.00		Contact Total	52.50
		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 105.00 Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: MACH 52

#### **Catalog Description:**

Interpretation of engineering drawings and specification for machinists and welders: Explanation of the rules, symbols, and relationships covered in blueprints, assembly drawings and weldments. Emphasis on American National Standards Institute (ANSI)/American Society of Mechanical Engineers (ASME) Y14.5 Geometric Dimensioning and Tolerancing (GD&T) Standards and use of Coordinate Measuring Machine (CMM) for inspection of GDT specifications.

### **Prerequisites/Corequisites:**

### **Recommended Preparation:**

#### **Limits on Enrollment:**

Both Certificate and Major Applicable

### **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Analyze engineering drawings and blueprints to determine their parts, features, sizes, locations, tolerances, relationships, fits, finishes and material conditions.
- 2. Effectively express and exchange ideas through various modes of communication.
- 3. Demonstrate technical skills in keeping with the demands of their field of study.

## **Objectives:**

At the conclusion of this course, the student should be able to:

- 1. Explain why drawings are so important to production planning and manufacturing.
- 2. Recognize viewing angles for the front, top, and side views of prints.
- 3. Identify the Alphabet of lines.
- 4. Describe the purpose of the title block and all of its meanings and uses.
- 5. Define the rules of dimensioning and the difference between size and location dimensions and dimensions with shop notes.
- 6. Identify basic geometric dimensioning, tolerancing, and datum referencing.

# **Topics and Scope:**

- I. Prints, Sketches and Drawings
  - A. Industrial prints
  - B. Manufacturing prints
  - C. Sketches
  - D. Assembly drawings

- E. Sectional drawings
- II. Views
  - A. Three-view drawings
  - B. Arrangement of views
  - C. Two-view drawings
  - D. One-view drawing
  - E. Auxiliary views
- III. Lines
  - A. Object lines
  - B. Hidden lines
  - C. Center lines
  - D. Extension lines
  - E. Projection lines
  - F. Other lines
  - G. Line combinations
- IV. Block and Zoning
  - A. Title block
  - B. Material block
  - C. Revision block
  - D. Print distribution block
  - E. Zoning
  - F. Special title block
- V. Dimensions and Notes
- VI. Geometric Dimensioning and Tolerancing

#### **Assignment:**

- 1. Read and study assigned chapters in the assigned text
- 2. Homework problems and reports, such as Research and obtain blueprint sketch or drawing from manufacturing firm or employer
- 3. Reading and drawing sketches
- 4. Quizzes and final

#### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing 0 - 0%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, reports

Problem solving 15 - 20%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Reading and drawing sketches

Skill Demonstrations 15 - 20%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes and final

Exams 45 - 55%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and Professionalism

Other Category 10 - 15%

# **Representative Textbooks and Materials:**

Print Reading for Machinists. Taylor, David. Delmar. 6th ed. 2019
