## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Apply cognitive paramedic knowledge to the care of an ill or injured person in the controlled environment of a hospital or clinical setting.
2. Demonstrate the ability to perform techniques and procedures as outlined in the California state regulations, Health and Safety Code, Title 22 and National Registry of Emergency Medical Technicians.
3. Demonstrate personal behaviors consistent with professional and employer expectations while caring for an ill or injured person.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Demonstrate verbal and written communication skills with patients, families, and members of the health care team.
2. Demonstrate ability to perform a thorough patient assessment on an adult patient with a medical complaint or traumatic injury.
3. Demonstrate affective behaviors expected of a professional paramedic.
4. Demonstrate all methods of oxygen therapy.
5. Demonstrate the ability to establish venous access.
6. Demonstrate proper techniques in administering medications through a variety of routes.
7. Demonstrate basic and advanced airway management techniques.
8. Demonstrate skills necessary to splint/immobilize all types of soft tissue and musculoskeletal injuries.

### **Topics and Scope:**

- I. Paramedic Theory
  - A. Leadership
  - B. Verbal and written communication
- II. Assessment and Management
  - A. Patient assessment
  - B. Airway management and oxygen therapy
  - C. Intravenous cannulation
  - D. Medication administration
- III. Trauma Emergencies

**Assignment:**

1. Patient case studies (10-15)
2. Research home medications (documentation) (15-30)
3. Affective and performance evaluations
4. Record patient assessments and skills (documentation)
5. Attendance as mandated by Title 22

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Patient case studies	Writing 20 - 30%
----------------------	---------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None	Problem solving 0 - 0%
------	---------------------------

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance evaluations	Skill Demonstrations 15 - 30%
-------------------------	----------------------------------

**Exams:** All forms of formal testing, other than skill performance exams.

None	Exams 0 - 0%
------	-----------------

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Affective behavior, attendance, documentation	Other Category 40 - 55%
---	----------------------------

**Representative Textbooks and Materials:**

Instructor prepared materials
