## **COURSE CONTENT**

**Outcomes and Objectives:**

Students will:

1. Develop a comprehensive understanding of the theory of the development of a CSA unit during the summer growing and early harvesting season.
2. Identify those climatic and environmental elements that need to be addressed during the summer season.
3. Diagram the elements into a way that identifies the various relationships and their potential effects on the management plan.
4. Create and update a business plan and professional brochure for their particular CSA unit.
5. Demonstrate summer harvesting and packaging techniques.
6. Research potential methods of financing a CSA unit.

**Topics and Scope:**

1. History and theory of CSA development during the summer growing and harvesting season.
2. Overview of business planning for summer crop production.
3. Demonstration of summer field management techniques.
4. Demonstration of production harvesting, processing, and delivery elements appropriate to summer season.
5. Identification of marketing and consumer relations issues that must be planned for during summer season.
6. Planning and discussion of accounting, legal, and laws and regulations affecting CSA development.

**Assignment:**

1. Keep a semester journal.
2. Develop a model brochure.
3. Develop a crop timing chart.
