COURSE CONTENT

Outcomes and Objectives:

The students will:

1. Demonstrate an understanding of the general concepts, techniques and terminologies related to scenic design, and will recall, identify compare and contrast these various subjects.
2. Assess the function of a stage designer and discuss this function in relation to the entire production staff in the creation and implementation of a particular design for a particular play.
3. Develop sufficient knowledge of technical theater traditions and practices to develop and organize methods of construction, mounting, and shifting scenery during a performance.
4. Assess the process of effective scene design from the preliminary conceptualization to its final visual presentation.
5. Demonstrate sufficient artistic skills to draw stage ground plans, perspective drawings, detailed elevations, painted renderings, and construct a three-dimensional scale model.

Topics and Scope:

1. Basic sketching, drafting, watercolor and model building techniques.
2. Analyzing of staging demands of plays from major historical periods.
3. Sketching a design concept.
4. Preparing drawings and renderings.
5. Presentation of a completed design.

Assignment:

1. Complete assignments in sketching, drafting, painting and model building.
2. Analyze staging demand of a play in the light of its historical period.
3. Prepare a sketch of design concepts for an assigned play.
4. Prepare drawings and renderings for a specific play.
5. Prepare and verbally present a completed design including a three dimensional model.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Lab reports

Problem solving
20 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams, SKETCH, DRAW & PAINT SKILLS

Skill Demonstrations
40 - 60%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

CLASS PARTICIPATION

Other Category
20 - 40%
