Grading:	Grade or P/NP
Repeatability:	00 - Two Repeats if Grade was D, F, NC, or NP
Also Listed As:	
Formerly:	AG 281.20

Catalog Description:

Soil types and irrigation requirements in the vineyard. Covers vineyard water and nutrition needs, water and fertilizer application techniques, and irrigation management for various rootstocks.

Prerequisites/Corequisites:

Recommended Preparation: Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, the student will be able to:

- 1. Give examples of North Coast geography and soil types.
- 2. Read and interpret a soil analysis.
- 3. Recognize foliar symptoms of grapevine nutrient deficiency.
- 4. Determine appropriate fertilizers and methods of application for grapevines.
- 5. Assess a plant's response to fertilizer application.
- 6. Discuss water management strategies for vine health.
- 7. Evaluate rootstocks for health and adaptability.

Topics and Scope:

- I. North Coast Geology and Soils
- II. Soil Chemistry
- A. Texture
- B. Clay types and chemistry cations
- C. Cation exchange and CEC (cation exchange capacity)
- III. Nutrient Mobility and Fixation
- IV. Reading and Understanding Soil Analyses
- V. Tissue Sampling and Interpretation
- VI. Visual Recognition of Foliar Symptoms
- VII. Fertilizers
- A. Determining vine needs
- B. Methods of application
- C. Assessing response to fertilizers
- VIII. Soil Physical Traits
- A. Texture
- B. Structure
- C. Water-holding capacity

- IX. Water Management Strategies
- A. Soil-, plant-, and weather-based techniques
- B. Separating types of "stress"
- X. Aerial Reconnaissance of Vineyards
- XI. Rootstock Adaptability and Selection
- XII. Phylloxera and Other Root Pests
- XIII. Rootstock Evaluation and Pathogens

Assignment:

Representative assignments:

- 1. Read and analyze 3-5 soil samples; write 1-page interpretive report on each.
- 2. Reading: 10-15 pages per week.
- 3. Field trip.
- 4. Quizzes (1-2) and final exam.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments are more appropriate for this course.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Soil analysis.

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion, Short answer.

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation.

Representative Textbooks and Materials:

Writing 0 - 0%	

10 - 20%
