COURSE CONTENT

Outcomes and Objectives:

The students will:

1. Describe the role and responsibilities of the project manager.
2. Explain the importance of the General Conditions of a construction contract.
3. Describe bonding and insurance requirements.
4. Outline the sequence of basic construction operations.
5. Prepare pre-construction planning documents.
6. Prepare common construction project documentation.
7. Interpret payment schedules and prepare related documentation.
8. Prepare documentation related to changes and extra work.
9. Describe project closeout procedures.
9. Interpret claims documents.
10. Describe the role of the project manager in disputes.
11. Outline alternative dispute resolution procedures.

Topics and Scope:

1. Review of the construction project cycle.
2. General Conditions of the contract.
3. Bonding and insurance practices.
4. Sequence of basic construction operations.
5. Pre-construction planning.
6. Typical Construction Reports.
7. Change Orders and contract extras.
8. Tracking the money.
9. Common construction claims and their documentation.
10. Alternative dispute resolution options.

11. Project closeout procedures.

Assignment:

1. Reading text.
2. Completing exercises and problem solving assignments such as:
 - a. Evaluating provisions of the General Conditions.
 - b. Comparing different bonding and insurance options.
 - c. Outlining the sequence of basic construction operations.
 - d. Interpreting construction planning information.
 - e. Research and preparation of simple construction reports.
 - f. Interpreting and applying change order and extra work information.
 - g. Interpreting claim documentation
 - h. Applying alternative dispute resolution techniques to mock problems.
3. Written assignments involving analysis and synthesis of course material.
4. Research and preparation of paper.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Term papers, CONSTRUCTION REPORTS & FORMS

Writing
20 - 40%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Quizzes, Exams, PROJECT SCHEDULES

Problem solving
20 - 35%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances

Skill Demonstrations
10 - 20%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
20 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

CLASS PARTICIPATION

Other Category
0 - 10%
