COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, students will be able to:

- 1. Identify the five elements of design and be able to use and interpret them in fashion designs.
- 2. Analyze the principles of body movement and balance and translate this information into numerous sketches of posed men, women, and children.
- 3. Apply the principles of light, shadow, and draping to the drawing of garments that appear lifelike.
- 4. Create renderings and sketches in a variety of media including pencil, markers, colored pencils, and pastels.
- 5. Compile ideas from various sources, such as magazines, TV, pattern books, and personal observations and synthesize into original designs.
- 6. Integrate the principles of color in design into fashion designs.

Topics and Scope:

Topics will include but not be limited to:

- I. Design Elements
 - A. Color
