Catalog Description:

DH 77 is the third course in the clinical dental hygiene course series. The course is given over a six-week period in the summer session between the first and second years of the dental hygiene program. DH 77 is designed for continuity of clinical application of the dental hygiene process for delivering client- centered care initiated in the DH 73 course (Spring Semester - 1st year). The course will consist of seminar and clinical experiences. Students will develop skills by working with clients in the Santa Rosa Junior College Dental Clinic.

Prerequisites/Corequisites:

Course Completion of DH 73

COURSE CONTENT

Outcomes and Objectives:

- Upon completion of this course, the student will be able to:
1. Assess and present a summary of the client's physical status (including vital signs).
 2. Identify significant medical and dental modifications required before proceeding with Dental Hygiene care, determine proper precautionary procedures (including consultation and/or referral) and apply those modifications during dental hygiene care.
 3. Follow appropriate emergency procedures whenever necessary for the client's well-being.
 4. Adhere to infection control protocols.
 5. Provide comprehensive dental hygiene care for assigned clients. Care will include assessment procedures, recording (charting) of findings, problem identification, dental hygiene treatment planning, case presentation, gaining client informed consent, implementing the individualized dental hygiene care which may include: preventive services, therapeutic procedures, adjunct therapies and evaluation of client response.
 6. Describe dental hygiene care modifications required with regard to: communication, safety precautions, appointment planning, care environment, individualized home care and oral manifestations or therapeutic side effects for the delivery of comprehensive dental hygiene care for clients with special needs.
 7. Integrate and correlate the basic, behavioral and dental sciences as they apply to the care of the dental hygiene clinic clients.

Topics and Scope:

- A. Physical Evaluation of the Dental Hygiene Client
 - 1. Life Threatening emergencies
 - 2. Health history
 - 3. Dialogue history
 - 4. Physical examination
 - a. Vital signs
 - b. Visual inspection
 - 5. Medical risk
 - 6. Presentation of findings
