### **Certificate/Major Applicable:**

Both Certificate and Major Applicable

### **COURSE CONTENT**

# **Outcomes and Objectives:**

Upon completion of this course, students will be able to:

- 1. Distinguish among significant theoretical perspectives on the development of the child.
- 2. Differentiate between chromosomes and genes, recessive and dominant traits, and monozygotic and dizygotic twins.
- 3. Discuss chromosomal and genetic abnormalities relevant to the psychological maladjustment of the child.
- 4. Describe how psychological and environmental factors such as maternal stress, nutrition, teratogens, sexually transmitted diseases, and drugs influence the development of the child.
- 5. Examine the brain structures, intellectual growth, perceptual processes, memory and language development of the child in the infancy, childhood and adolescent years.
- 6. Explain how attachment, social deprivation, child abuse and neglect, day care, temperament, and gender differences influence the infant's social and emotional development.
- 7. Discuss the influence of parenting styles, siblings, peer interactions, and gender roles in the early childhood years.
- 8. Describe the factors that contribute to and delineate treatment strategies for childhood obesity, eating disorders, elimination

- disorders, ADHD, and learning disabilities.
- 9. Provide causal factors and treatment options for separation anxiety, conduct disorder, childhood depression, and drug abuse in the middle childhood and adolescent years.
- 10. Discriminate among the various theories that describe the adolescent's self-concept, emotional, cognitive and moral development.

### **Topics and Scope:**

- 1. The Study of Human Development: History, Research, and Theories
- 2. The Human Heritage: Genes and Environment
- 3. Prenatal Development and Birth
- 4. Infant Capacities and the Process of Change
- 5. The Achievment of the First Year and the End of Infancy
- 6. Early Experiences and Later Life
- 7. Language Acquisition
- 8. Early Childhood Thought: Islands of Competence
- 9. Social Development in Early Childhood
- 10. The Contexts of Early Childhood: Family and Media
- 11. Cognitive and Biological Attainments of Middle Childhood
- 12. Schooling and Physical and Social Development in Middle Childhood
- 13. Biological and Social Foundations of Adolescence
- 14. Cognitive and Psychological Achievements of Adolescence

### **Assignment:**

- 1. Read approximately 25-35 pages per week, and recapitulate assigned material in the textbook and supplements.
- 2. Take at least two but no more than four midterm exams and one final on lectures, reading concepts and terminology.
- 3. Write a term or course research paper approximately 3-5 pages in length for the purpose of learning research skills, enhancing course knowledge, and improving writing skills.
- 4. At the discretion of the instructor, oral presentations and group projects may be assigned.

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Course research paper

Writing 10 - 25%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving 0 - 0%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations 0 - 0%

**Exams:** All forms of formal testing, other than skill performance exams.

Multiple choice, true/false, fill-in, short answer, essay exams

Exams 75 - 90%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Group projects, oral presentations

Other Category 0 - 10%
