Total Out of Class Hours: 105.00

Total Student Learning Hours: 210.00

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly:

Catalog Description:
Principles of special procedures and specialized imaging modalities. Principles of venipuncture, fluoroscopy, and its related equipment. Demonstration and practice of venipuncture.

Prerequisites/Corequisites:
Course Completion of RADT 63B and Concurrent Enrollment in RADT 62BL and Concurrent Enrollment in RADT 65

Recommended Preparation:

Limits on Enrollment:

Schedule of Classes Information:
Description: Principles of special procedures and specialized imaging modalities. Principles of venipuncture, fluoroscopy, and its related equipment. Demonstration and practice of venipuncture. (Grade Only)
Prerequisites/Corequisites: Course Completion of RADT 63B and Concurrent Enrollment in RADT 62BL and Concurrent Enrollment in RADT 65
Recommended:

Limits on Enrollment:

Transfer Credit: CSU;

Repeatability: Two Repeats if Grade was D, F, NC, or NP

COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course students will be able to:

1. Apply the steps of operation of a medical fluoroscopic imaging system.
2. Describe the direct correlation between the patient radiation dose and use of fluoroscopy.
3. Apply principles of radiation protection to self, patients, and other personnel.
4. List all sequential operations of all major radiographic equipment in an angiography suite.
5. Identify viscera, vascular, and lymphatic systems, lungs and heart, and brain on radiographic images.
6. Apply all routine angiographic procedures.
7. Perform venipunctures in medical imaging environments.

Topics and Scope:

- I. Principles and operation of fluoroscopic imaging systems
 - A. Television
 - B. Vidicon, plumbicon, orthicon
 - C. Image intensifier
 - D. Video recorder
 - E. Cine camera
 - F. High resolution radiographic tube
 - G. Digital fluoroscopy
- II. Patient radiation dose
 - A. Primary radiation
 - B. Secondary and scatter radiation
 - C. Skin dose
 - D. Organ dose

- III. Types of angiographic equipment, Computerized Tomography (CT), and Magnetic Resonance Imaging (MRI)
 - A. Operational procedures
 - B. Safety procedures
- IV. Radiographic images
 - A. Viscera
 - B. Arterial system
 - C. Venous system
 - D. Lymphatic system
 - E. Lungs and heart
 - F. Brain and vessels
- V. Heart catheterization and angiography
 - A. Operational procedures
 - B. Safety procedures
- VI. Venipuncture
 - A. Principles
 - B. Instrumentation
 - C. Regulations
 - D. Practice

Assignment:

1. Completion of a minimum of 10 venipunctures.
2. Completion of 6 - 8 term papers.
3. One midterm examination.
4. Final examination.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Research papers

Writing
20 - 40%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance exams, A minimum of 10 venipunctures

Skill Demonstrations
10 - 30%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, Midterm and final exams

Exams
40 - 60%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%

Representative Textbooks and Materials:

- Merrill's Atlas of Radiographic Positions and Radiologic Procedures, Ballinger, 8th edition, 2005.
- Instructor-prepared material
