COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, the students will be able to:

1. Propose a theme on which to base a related series of ceramic forms.
2. Develop disciplined work habits as well as greater risk-taking and experimentation.
3. Express personal vision and statement through continued development of hand skills.
4. Examine ideas, idioms and procedures of ceramic artists of the past and present as a stimulus and point of departure.
5. Develop specific skills in formulating glazes: line blends, flux saturations, color development.
6. Examine and analyze examples of historical and contemporary ceramics.
7. Apply a working vocabulary of the firing process of ceramics.
8. Demonstrate the ability to make aesthetic and technical judgments about one's work and the work of others.
9. Define health and safety issues that arise from the use of ceramics materials and equipment.

Topics and Scope:

1. Review the potter's wheel and hand-building techniques for the creation of complex and larger scale ceramic forms displaying personal expression.
2. Overview of the firing processes for gas and electric kilns.
3. The use of a variety of glazes:
 - A. Lowfire/highfire glaze
 - B. Luster glaze
 - C. Maiolica glaze
 - D. Underglaze
4. Conceptual aspects of three-dimensional objects:
 - A. Metaphor
 - B. Symbol

- C. Narrative
- 5. Color development in glaze mixing
 - A. Reading a glaze formula
 - B. Line blends
 - C. Triaxials
 - D. Applying test tiles
 - E. Firing test tiles
- 6. The use, care and safety of the materials, tools and equipment
- 7. The concepts and elements of historical and contemporary ceramics

Assignment:

Assignments may include the following:

1. Explore one's own thoughts and feelings around a particular social issue and express one's own ideas in ceramic forms (total number of works will be determined by complexity and size).
2. Produce a series of hand-built or thrown works that engage the individual's concept (total number of works will be determined by complexity and size).
3. Complete a series of line blends/triaxials and color experiments with glaze materials, and apply them to test tiles.
4. Write two reports (2-3 pages each); one on a ceramic artist, and one on a gallery exhibition.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Short reports on artists, and gallery exhibition.

Writing
10 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Final exhibit of completed glazed work.

Skill Demonstrations
60 - 75%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance, effort, artistic growth and participation.

Other Category
10 - 25%
