Major Applicable Course

COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of the course, students will be able to:

1. Explain the relationship between environmental philosophy and environmental science.
2. Describe and critique the traditional ethical theories that are relevant to environmental ethics (e.g. utilitarianism, deontology and natural law theory).
3. Elucidate and evaluate the extent to which these theories place value upon various aspects of the natural environment (e.g. humans, animals, plants, species, ecosystems).
4. Describe and critique non-traditional theories in environmental ethics (e.g. biocentric ethics and the land ethic).
5. Describe and evaluate philosophies which emphasize a more metaphysical approach to environmental philosophy (e.g. Deep Ecology).
6. Explain and evaluate environmental philosophies that are rooted in the spiritual beliefs of cultures throughout the world, including Western, Eastern and Native cultures.
7. Describe and critique environmental philosophies that examine the interplay between the environment and social or economic issues (e.g. environmental justice, social ecology, and ecofeminism).
8. Describe and evaluate various theories in environmental aesthetics.
9. Compare and contrast how various environmental philosophies apply to selected global and/or local environmental issues or problems.

Topics and Scope:

Representative topics include:

- I. Environmental philosophy in relation to environmental science
 - A. The role of philosophy in environmental studies
 - B. The role of science in environmental studies
 - C. The relationship between philosophy and science in environmental studies
- II. Traditional ethical theories in environmental philosophy
 - A. Utilitarianism
 - B. Rights theory
 - C. Contractarian theory
 - D. Natural Law theory
 - E. Deontology
- III. Non-traditional ethical theories in environmental philosophy
 - A. Life-centered (Biocentric) ethics
 - B. The Land Ethic (Ecocentrism)
- IV. Metaphysics in environmental philosophy: Deep ecology
- V. Spiritual/religious approaches to environmental philosophy
 - A. Native American traditions
 - B. Buddhist and/or Hindu traditions
 - C. Taoism
 - D. Christianity
- VI. Economic, political and social issues in environmental philosophy
 - A. Environmental justice/environmental racism
 - B. Social ecology
 - C. Ecofeminism
- VII. Environmental aesthetics
 - A. Thoreau: Wildness and nature aesthetics
 - B. Environmental science as a basis for environmental aesthetics
 - C. Artistic criteria for environmental aesthetics
- VIII. Philosophical theories in relation to selected environmental issues
 - A. Environmental philosophy and population growth
 - B. Environmental philosophy and agriculture
 - C. Environmental philosophy and global warming

Assignment:

1. Regular reading assignments (totaling 20-30 pages per week) from course texts and supplementary materials.
2. Four to twenty quizzes which cover the assigned readings.
Quizzes may be either multiple choice or short answer.
3. Two to three midterm examinations including in-class written essays.
4. A final examination which includes written in-class essays in response to questions on material covered in class and in texts.
5. Students may also be required to write a term paper in which they research an issue raised in class and defend a particular position on that issue.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Term paper	Writing 0 - 30%
Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.	
None	Problem solving 0 - 0%
Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
None	Skill Demonstrations 0 - 0%
Exams: All forms of formal testing, other than skill performance exams.	
Multiple choice, essay exams, short answer	Exams 70 - 100%
Other: Includes any assessment tools that do not logically fit into the above categories.	
None	Other Category 0 - 0%
