### **Certificate/Major Applicable:**

Both Certificate and Major Applicable

## **COURSE CONTENT**

### **Outcomes and Objectives:**

Upon completion of the course, students will be able to:

- 1. Construct a custom fitted underwire bra.
- 2. Identify and apply foundation lingerie sewing techniques, pattern alterations, and proper bra fit.
- 3. Describe the unique foundation garment needs of individuals with mastectomies.
- 4. Locate lingerie sources for garment construction.
- 5. Calculate the cost of materials.
- 6. Summarize the history of the modern bra.
- 7. Based on subsequent repeats, students will be able to apply techniques to:
  - a. increasingly complex applications
  - b. increasingly complex patterns
  - c. fabric manipulation with a variety of fabric textures
  - d. increasingly complex fitting issues and adjustments
  - e. gain confidence and speed

## **Topics and Scope:**

- 1. Historical and social perspective of foundation garments from Crete to the 1990s
- 2. Proper bra fit
- 3. Pattern alterations
- 4. Foundation-garment sewing techniques, materials, terms, and troubleshooting using analysis of ready-to-wear foundation garments
- 5. Unique foundation garment needs experienced by individuals with mastectomies or impaired range of motion or dexterity
- 6. Lingerie sources for continued construction of specialized foundation garments, including commercial site addresses and phone numbers as well as Internet addresses and possible links
- 7. Material costing
- 8. Repeating students will perform construction techniques using increasingly complex applications:
  - a. increasingly complex patterns
  - b. fabric manipulation with a variety of fabric textures

c. increasingly complex fitting issues and adjustments

### **Assignment:**

Representative assignments:

- 1. Pattern alteration using flat pattern work
- 2. Homework problems: materials cost calculations; locate and compile into notebook file information on lingerie sources
- 3. Completion of properly fitted underwire bra
- 4. One exam
- 5. Repeating students will complete projects demonstrating increasingly complex applications:
  - a. increasingly complex patterns
  - b. fabric manipulation with a variety of fabric textures
  - c. increasingly complex fitting issues and adjustments

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing 0 - 0%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems

Problem solving 10 - 20%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Alterations and construction techniques, projects/notebook file

Skill Demonstrations 40 - 70%

**Exams:** All forms of formal testing, other than skill performance exams.

Multiple choice, completion, short answer

Exams 10 - 20%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Other Category 0 - 20%

# **Representative Textbooks and Materials:**

Instructor-prepared materials.
