## **COURSE CONTENT**

### **Outcomes and Objectives:**

Upon completion of the course, students will be able to:

1. Create storyboard drawings and design documents for a proposed game.
2. Create a 3D demo of a game to be developed.
3. Add keyboard commands and collision detection to a game.
4. Add sound effects, music and narration to a game.
5. Play the test projects and write bug reports.
6. Present a completed game to possible investors or clients.

### **Topics and Scope:**

1. Course overview
  - a. Brainstorming
  - b. Comp (comprehensive) drawings
2. Storyboarding
  - a. Technical documents
  - b. Design documents
3. Introduction to 3D Studio Max
4. 3D modeling with 3D Studio Max
5. Environment / worldbuilding
6. Lights, cameras, and animations
7. Introduction to Director
8. Lingo scripting for keyboard controls and collision
9. Scripting goals
10. Audio

11. Title and credit screens
12. Publishing and CD covers
13. Beta testing and bug reporting
14. Last fixes before going to Gold version
15. Presenting projects

### Assignment:

1. Internet research assignments, 15-20 pages per week
2. Written review of a favorite video game (1 page)
3. Written assignments on Internet research topics (7-9 one page assignments)
4. Job Order 1:
  - a. Storyboard drawings: minimum of eight sketches (top and side view)
  - b. Design document: minimum 2 pages
5. Job Order 2:
  - a. Preliminary 3D modeling
  - b. Vehicle model and environment
6. Job Order 3:
  - a. Lingo scripting goal, trap, sound and overlay
  - b. Playable executable file
7. Job Order 4:
  - a. Sound
  - b. Title and credit screens
8. Job Order 5:
  - a. Bug reports (4)
  - b. Playable executable Gold Version presented on a CD with all required files
9. Final Project
  - a. All working files turned in on a CD with a labeled cover
  - b. All 5 Job Orders submitted inside a labeled folder
  - c. Presentation of projects

### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Review and assignments
------------------------

Writing 5 - 10%
--------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Job Orders 1-5
----------------

Problem solving 50 - 70%
-----------------------------

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Final project
---------------

Skill Demonstrations 20 - 30%
----------------------------------

**Exams:** All forms of formal testing, other than skill performance exams.

None

Exams  
0 - 0%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Teamwork

Other Category  
0 - 10%
