		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 105.00

Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly:

**Catalog Description:**

Reading and interpreting plans, and estimating time, material, labor and equipment needed for public works projects. Concepts include quantity take offs, construction lay-out, rehabilitation, maintenance, inspection and testing with material cost estimating of public works improvements. Proper use of basic survey methods, symbols, mathematical conversions, determination of slope, grade, location and quantities are covered.

**Prerequisites/Corequisites:****Recommended Preparation:****Limits on Enrollment:****Schedule of Classes Information:**

Description: Reading and interpreting plans, and estimating time, material, labor and equipment needed for public works projects. **Certificate/Major Applicable:**

Both Certificate and Major Applicable

### **COURSE CONTENT**

**Outcomes and Objectives:**

Upon completion of this course, the student will be able to:

1. Determine take off quantities from engineer's drawings
2. Determine time, labor and materials needed to construct public works projects
3. Prepare lay-out documents to maintain and rehabilitate public works projects
4. Calculate slope, grade and location of engineering features on public works projects
5. Identify and describe proper safety procedures on a construction site

**Topics and Scope:**

1. Public works plan interpretation and implementation
  - a. Improvement Plans-plan, profile, cross section views
  - b. Engineering design standards and details
  - c. Contracts and specifications
  - d. Project administration
  - e. Scheduling and management
2. Engineering construction quantities
  - a. Clearing and grading
  - b. Underground piping systems
  - c. Roadway structural sections
  - d. Landscaping
  - e. Street lighting and traffic signal construction
3. Preparing bid documents
  - a. Engineer's estimate
  - b. Quantity pricing
  - c. Contract specifications

4. Records and reports
  - a. Progress payments
  - b. Contract change orders
  - c. Project acceptance and closing reports
  - d. Record drawings
5. Layout construction features
  - a. Compute locations
  - b. Surveying requests
  - c. Layout diagrams
6. Spread sheets for estimating
7. Construction site safety

**Assignment:**

1. Read approximately one chapter of the textbook per week
2. Weekly homework assignments consisting of 5 to 10 problems and/or Excel spreadsheets
3. 5-7 written papers and reports
4. 1 semester project
5. 3 midterms
6. 1 final exam

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Reports, papers	Writing 20 - 30%
-----------------	---------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, project, Excel spreadsheets	Problem solving 20 - 30%
--	-----------------------------

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance exams, project	Skill Demonstrations 30 - 40%
----------------------------	----------------------------------

**Exams:** All forms of formal testing, other than skill performance exams.

Midterms, Final Exam: Essays, Matching items, Completion	Exams 20 - 30%
--	-------------------

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Class Participation	Other Category 0 - 10%
---------------------	---------------------------

**Representative Textbooks and Materials:**

Construction Estimating Using Excel

by Steven J. Peterson, Prentice Hall 2006

Fundamentals of Construction Estimating

by David Pratt, Delmar Cengage Learning; 2nd Edition 2003

Chapters from various State, County and Local Agency Design and Construction Manuals
