Catalog Description:

A third semester clinical course that includes a 120-hour preceptorship preparing students to practice vocational nursing at the entry level. Principles learned in prerequisite and corequisite theory and skills courses are applied to the care of patients in acute care hospitals, community based clinics, home care, and skilled nursing settings. The focus is broadened to include more aspects of patient care at an advanced level, such as medical surgical, mental health, and geriatric. Orem's Self-Care Deficit Theory is the basis for applying the nursing process for the assigned medical-surgical, mental health, and pediatric clients.

Prerequisites/Corequisites:

Course Completion of NRV 52.1 and NRV 58B and NRV 52.1L AND Concurrent Enrollment in NRV 58C and Course Completion or Current Enrollment in NR 256.1

COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, students will be able to:

1. Care for medical surgical, mental health, and adult/geriatric/pediatric clients within the VN scope of practice.
2. Prioritize and organize care of 4-6 patients in acute and long-term settings and demonstrate appropriate skills for clients in ambulatory settings.
3. Apply culturally sensitive care.
4. Provide safe care in a professional and ethical manner for clients and families.
5. Document accurately with an increased ability to evaluate outcomes.
6. Contribute to the nursing care plans and develop patient-centered teaching skills.
7. Communicate effectively as a member of the multi-disciplinary team.
8. Participate in a clinical preceptorship integrating previously learned skills at a more advanced level.

Topics and Scope:

1. Maintaining a safe environment within the VN scope of practice
 - a) Orientation to the clinical setting
 - I. physical environment

- II. fire, safety, disaster protocols, emergency codes and equipment
 - III. government rules and regulations for various agencies
 - IV. members and roles of the health care team
 - V. professional communication with health care team, clients and families
 - VI. documentation
2. Collection of patient information
 - a) co-morbidities
 - b) medical history
 - c) present illness
 - d) psycho-social/cultural
 3. Advanced level of nursing care of medical surgical, adult/geriatric/pediatric, and mental health clients using the nursing process with conditions affecting.
 - a) musculoskeletal and neurological
 - b) circulatory and respiratory
 - c) integumentary and sensory
 - d) digestive and reproductive
 - e) urinary and endocrine
 - f) mental health
 4. Advanced level of nursing care and nursing care plans of the adult/geriatric medical surgical, mental health and pediatric client
 5. Clinical pathways and teaching protocols for
 - a) complex medications regimens
 - b) physical assessment
 - c) various medical surgical, pediatric, and mental health disease states
 - d) culturally appropriate care
 6. Increased responsibility for patient care and leadership in a variety of settings
 - a) increased number of patients
 - b) case management and quality assurance with the role of the vocational nurse as a multidisciplinary team member
 - c) team-leading and supervision concepts and delegation of tasks to unlicensed personnel
 - d) collaboration with preceptor faculty for clinical preceptor experience
 - e) increase complexity of skills, prioritizing care, individualization of client care, and assuming of total preceptor assignment

Assignment:

1. Clinical documentation, competency completion, and clinical evaluations in the acute care and ambulatory setting rotation (3-6)
2. Mid and final evaluations
3. Clinical case scenarios and concept maps (6)
4. Multi-media assignments (4-8)
5. Portfolio (ongoing)
6. Clinical preceptorship final six weeks of semester

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

| | |
|---|----------------------------------|
| Portfolio, concept maps, community health resource paper, lab reports | Writing 5 - 15% |
| Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills. | |
| Clinical case scenarios, virtual clinical excursions (VCE) | Problem solving 5 - 15% |
| Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams. | |
| Clinical documentation, competency completions, evaluations, including preceptorship | Skill Demonstrations 70 - 85% |
| Exams: All forms of formal testing, other than skill performance exams. | |
| None | Exams 0 - 0% |
| Other: Includes any assessment tools that do not logically fit into the above categories. | |
| None | Other Category 0 - 0% |
