COURSE CONTENT

Outcomes and Objectives:

The students will:

1. Analyze critical approaches to poetry, short fiction and art.
2. Establish evaluative criteria for selecting poetry, short fiction, and art on standards outside of critical approaches, such as audience, presentation, and printing standards and costs.
3. Proofread, using common proofreading markings.
4. Budget a printing project, from concept to final product.
5. Analyze aspects of small press publication, including marketing techniques, copyright law, and distribution techniques.
6. Identify a variety of common printing methods.
7. From paper catalogs, students will select common paper types and sizes, determining grain, finish, and cutting directions for press and cost advantages.
8. Identify fonts and spec type in standard classes.
9. Use both manual and computer-programmed steps for layout for type and art.
10. Size originals to printing size by use of a reduction wheel.
11. Perform assigned steps in printing, including shooting and stripping negatives and collating printed materials.
12. Identify standard binding methods.

Topics and Scope:

1. Materials for Publication.
 - A. Poetry and short fiction.
 1. criteria for acceptance
 2. expectations of and suitability for audience
 3. expectations of editorial group
 - B. Artwork.
 1. camera-ready printability of materials

2. criteria for acceptance
3. expectations of and suitability for audience
4. expectations of editorial group
2. Small Press Publication.
 - A. Marketing.
 1. soliciting materials
 2. advertising for a specific market
 3. distribution
 - B. Copyright law and releases.
3. Printing.
 - A. Examine offset, xerography, laser, inkjet, and other methods
 - B. Layout study.
 1. thumbnail sketches, roughs, final designs
 2. dummy books
 3. paste up and camera-ready art
 - C. Type study.
 1. measurement and specs
 2. readability
 3. computer typesetting
 - D. Paper study.
 1. grades, finishes, grain direction, and weights
 2. pricing and cutting from parent stock
 - E. Printing Images
 1. halftone and line negatives
 2. scaling originals - percentages for reduction and enlargement
 3. cropping
 4. shooting and stripping negatives
 5. computer scanning methods
 - F. Collating and binding methods.

Assignment:

STUDENTS WILL:

1. Research and make quality comparisons of printing techniques from traditional offset to xerography, inkjet, and laser processes.
2. Study and collect paper samples and solve costs and cutting problems for a mock book.
3. Research and collect font samples, examining type-specification problems in traditional and computer methods.
4. Study binding methods.

As members of the editorial group to create the college's literature and art review, students:

1. Prepare ads, submission materials, page layout, and cover art from rough thumbnail sketches to final print-ready art.
2. Examine poetry, short fiction, and art, establishing criteria for selecting materials to be printed.
3. Select materials to be printed, justifying their selection for specific audience.
4. Decide on printing order of selected materials, justifying their decisions by content.
5. Determine length of magazine and select papers, justifying

their choices by selected design, paper pricing, and total costs for the run.

6. Study and select fonts, justifying their design choices.
7. Maintain a budget of project costs.
8. Study proofreading methods and proof selected copy for magazine.
9. Lay out typeset pages, either manually from prepared typesetting or by microcomputer.
10. Complete computer typesetting and layout.
11. Size and shoot line negatives, and size and order half-tones.
12. Strip negatives for platemaking.
13. Collate final printed pages.
14. Distribute completed magazine.
15. Write a final evaluation of their individual roles as members of the editorial group for the college's literary magazine.

As part of the student's individual project, students:

1. Write a proposal and justification for an individual project incorporating course content.
2. Prepare individual projects from roughs to camera-ready art.
3. Report estimates for printing a set number of copies of their projects.
4. Write a final evaluation of their individual projects.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Reading reports, Final eval. of projects & roles as editors.

Writing
10 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Field work, Quizzes

Problem solving
25 - 50%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, PROJECT UP TO CAMERA-READY ART

Skill Demonstrations
25 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Completion

Exams
5 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation.

Other Category
5 - 20%
