COURSE CONTENT

Outcomes and Objectives:

Upon completion of the course students will be able to:

1. Compare and contrast a variety of early childhood educational theories, philosophies, program models, licensing and regulatory structures.
2. Evaluate introductory principles that define high quality early childhood educational and care programs as they relate to children of all abilities, their families, teachers, program and curriculum development.
3. Analyze early childhood educational and care practices in a social and cultural context.
4. Examine professional development and ethics in early childhood education.
5. Develop strategies to maintain communication and access with English learning families and children.
6. Compare and contrast principles of positive guidance strategies.
7. Construct a professional philosophy and plan utilizing current information on career pathways and opportunities.

Topics and Scope:

Topics will include but not be limited to:

- I. The Field of Early Childhood Education
 - A. Historical perspectives in early childhood education and care
 - B. Introduction to and comparison of major program models, theories, and philosophies
- II. Introductory Principles for Instructional Strategies and Program Components
 - A. The role of observation and assessment
 - 1. Evaluating children for planning and curriculum development using checklists and child portfolios
 - 2. Evaluating program components for planning and curriculum development
 - B. Learning in the domains of development
 - C. Developmentally appropriate practices
 - 1. The role of play in curriculum
 - 2. Constructivist learning
 - D. The anti-bias curriculum; culturally consistent education and care
 - E. Inclusion of children with special needs
 - 1. Least restrictive inclusive environments
 - 2. Resources in the community
 - F. Indoor and outdoor environments
 - G. Schedules and routines
 - H. Safety
- III. The Role of the Teacher
 - A. Relationships with children
 - 1. Positive guidance strategies
 - 2. Facilitating play and learning
 - B. Relationships with families
 - 1. Cultural and social influences
 - 2. Teacher-parent interactions
 - 3. Supporting families with children learning English
 - C. Professional ethics relating to early childhood practices
 - D. Professional development
 - 1. Career options and requirements
 - 2. Explanation of credentials, certificates and permits
 - 3. Professional philosophy

Assignment:

Assignments may include:

1. Examine a variety of early childhood program models to compare and contrast educational philosophies reflected in each model.
2. Complete 15 hours of participation in a licensed early childhood program to develop an introductory understanding of program components and curriculum development.
3. Compose a series of reflective essays (a journal) that evaluate the application of introductory principles of practices observed at the students' participation site.
4. Utilize observation tools and checklists that reflect developmentally appropriate principles to study and evaluate the role of the child, teacher, and environment in program and curriculum development.
5. Investigate the professional development and job responsibilities of the occupation by interviewing an early childhood teacher.
6. Develop a portfolio and career plan that reflect professional growth and understanding of occupational requirements.
7. Evaluate a variety of professional publications in order to become acquainted with professional resources in the early childhood field.
8. Complete up to four assignments (readings, observations, reflective questions) chosen from a

menu of options that require the student to apply concepts from the course and reading.

9. Complete weekly reading assignments from the text or handouts (approximately 20-30 pages) and in-class or homework activities that require the student to apply the course and reading content.
