Catalog Description:

This course will provide the student with the opportunity to learn and apply the principles and protocols of sports medicine and athletic training in a supervised lab setting. This course continues the sports medicine student lab experience with the addition of intermediate level practical application of sports medicine and athletic training skills. This course will help the student prepare for transfer to a Commission on Accreditation of Athletic Training Education (CAATE) accredited athletic training program. The practical experience gained in this course will also complement other physical education and healthcare majors and professions.

Prerequisites/Corequisites:

Course Completion of KINES 62B

Recommended Preparation:

Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:**Schedule of Classes Information:**
