COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of this course students will:

1. Describe maintenance and inspection procedures for a variety of industrial machinery.
2. Locate and apply instructions from technical manuals to maintenance and inspection procedures.
3. Locate and identify critical lubrication points in machinery.
4. Differentiate among types of lubricants.
5. Interpret rating symbols on maintenance product labels and correlate to application.
6. Recognize symptoms of potential machine failure.

Topics and Scope:

- I. Maintenance and inspection procedures
 - a. scheduled maintenance
 - b. preventive maintenance
- II. Using technical manuals
 - a. hard copy
 - b. computerized
 - c. locating information
 - d. interpreting instructions
- III. Lubrication
 - a. solid and liquid lubricants
 - b. lubrication points
 - c. rating symbols
- IV. Failure analysis
 - a. metallic parts failures
 - b. failures due to neglect/lack of maintenance

Assignment:

1. Reading assignments and worksheets covering course topics.

2. Individual and group activities interpreting maintenance and inspection procedures.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Written exercises.

Writing
15 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Quizzes, Exams

Problem solving
10 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
30 - 60%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation.

Other Category
10 - 20%

Representative Textbooks and Materials:

Instructor and/or industry provided handouts.
