COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of the course, students will be able to:

1. Distinguish "land" from "site".
2. Compare and contrast real property versus personal property.
3. Formulate property value basics and principles including substitution, highest and best use, supply and demand, conformity/contribution, and the law of increasing and decreasing returns.
4. Summarize the three basic appraisal approaches including market data, cost, and income capitalization.
5. Produce a residential appraisal.

Topics and Scope:

1. Basic concepts of real estate appraisal
 - a. Land versus site in relation to water rights
 - 1) Municipal
 - 2) Private
 - 3) Riparian
 - b. Real property
 - 1) Fixtures
 - 2) Appurtenances
 - 3) Bundle of rights
 - c. Personal property
2. Basic value principles
 - a. Substitution
 - b. Highest and best use
 - c. Supply and demand
 - d. Conformity/contribution
 - e. Law of increasing and decreasing returns
 - f. Competition/change and anticipation
3. The appraisal process

- a. Market data
- b. Cost
- c. Income capitalization
- 4. The appraisal report
 - a. Letter of opinion
 - b. Form report
 - c. Narrative report

Assignment:

1. Appraisal report of real property (apply principles and theory to complete standard legal instrument); written components graded as part of the whole
2. Weekly reading assignments of 20-40 pages
3. Field work of approximately 15 hours related to appraisal report, including, but not limited to, measuring real property, locating appropriate comparable properties, contact with county offices and other real estate professionals; as appropriate to specific property
4. Quizzes on each chapter of the text
5. Midterm and final exams
6. Homework, including but not limited to, online research of government, agency and licensing resources
7. Presentation of appraisal report with explanation of method used and citation of statutes to support legal instrument
