COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, students should be able to:

- 1. Write a script for multi-camera production using proper formatting.
- 2. Pre-produce a script implementing the various theories, and demonstrating the various skills, of: lighting, basic set design, camera layout, audio recording, assemblage of pre-recorded material and basic graphics.
- 3. Utilize basic video production equipment correctly, safely and creatively in the production of an original script. This includes proper use of: cameras, lights, audio, audio mixers, switchers, video recording, character generation and teleprompter.
- 4. Evaluate and analyze multi-camera productions.
- 5. Identify the various forms and formats of multi-camera studio productions and the elements that distinguish them.
- 6. Work effectively in a team environment as both a team leader (director) and as a member of the group in a variety of crew positions.
- 7. Demonstrate a hands-on ability to perform appropriate critical thinking needed for successful teamwork in television studio environment.

Topics and Scope:

- 1. Introduction to Multi-Camera Production
 - A. Single versus multi-camera production
 - B. Studio production formats

i. news

ii. talk show

iii. scripted

- C. Studio versus location production
- 2. Overview of the Studio
 - A. Safety
 - B. The control room
 - C. The studio

D.Workflow

3. Studio Technologies

- A. Studio cameras
- B. Intercom fold back
- C. The lighting board
- D. Microphones
- E. The audio board
- F. The switcher
- G. Clip store
- H. Teleprompter
- I. Character generator
- J. Video tape recorder

4. Basic Production Design

- A. Basic set design
- B. Lighting for multi-camera production

5. The Crew

- A. Director
- B. Assistant director
- C. Technical director
- D. Audio
- E. Graphics
- F. Floor manager
- G. Camera operator
- H. Talent
- I. Lighting director

6. Production

- A. Script formatting
- B. Script content
- C. On-air delivery
- D. Live and live-to-tape

Assignment:

- 1. 15-25 pages of reading from texts, manuals and on-line sources weekly
- 2. Writing 2-4 original scripts (15-30 pages each), in proper format, appropriate for a multi-camera studio environment.
- 3. Serve as the director and team leader on 2-4 original film projects including pre-production of an original script to prep it for production, and the directing and implementation of this plan through production in a live studio environment
- 4. In class labs practicing technical and artistic skills relating to the studio camera, lighting, sound recording, directing, set management and switcher
- 5. Self evaluation and peer critiques
- 6. 6-8 quizzes, a midterm exam and final exam (includes hands-on demonstration of knowledge and essay)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Scripts, self evaluations, peer critiques

Writing 10 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Individual or group film project planning

Problem solving 10 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, individual or group project, performance exams

Skill Demonstrations 30 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes, Exams: Multiple choice, True/false, Matching items, Completion

Exams 10 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

Class participation

Other Category 10 - 30%
