COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Describe how persons with disabilities relate to the culture of disability and the history of disability.
2. Describe the separate operations of mental health and addiction agencies and how this separation affects persons with both psychiatric and substance abuse disorders.
3. Explain how alcohol/drug use can mimic or mask psychiatric problems and the importance of differential diagnosis.
4. Demonstrate strategies useful in identifying individuals with co-occurring diagnoses.
5. Analyze, discuss and demonstrate the variety of roles and skills needed by a disability services worker.

Objectives:

1. Discuss the historical development of disability issues in the United States.
2. Evaluate current social issues and laws that impact individuals with disabilities.
3. Outline the components of disability culture.
4. Demonstrate an awareness of diverse populations of persons with disabilities in Sonoma County and the United States.
5. Describe the terminology and treatment modalities for co-occurring disabilities.
6. Identify key issues and concerns in co-occurring diagnoses for the disability services worker.
7. Describe relationships between substance abuse and mental health symptoms and disorders.

8. Analyze, discuss and demonstrate the variety of roles and skills needed by a disability services worker.
9. Analyze the functions and goals of local, state and national service agencies for specific disabilities.
10. Identify professional values and goals of employees in local disability service agencies.
11. Enumerate the legal, political and economic impacts of disability issues in the United States.
